**THE EAST AFRICAN TRADE AND TRANSPORT  
FACILITATION PROJECT**

**EAST AFRICAN TRANSPORT STRATEGY AND REGIONAL  
ROAD SECTOR DEVELOPMENT PROGRAM**

---

**FINAL REPORT  
PART IV: TRANSPORT PROJECTS AND PROJECT  
PRIORITY PROFILES  
MARCH 2011**

---

**Prepared By:  
Africon Ltd**

## STRUCTURE OF DOCUMENT

This report is made up of four parts:

- **Part I** provides the general background to the study. It reports on the analyses that are common to and form the foundation of the Transport Strategy and Roads Development Program, including the regional corridors, the economy and demography of the region, transport demand and transport modelling, and the principles for project identification and prioritisation.
- **Part II** is the Transport Strategy. It covers the policy/institutional arrangements in the transport sector in the EAC and its member countries. It then provides an overview of regional issues and identifies regional interventions in each of the transport modes, i.e. roads, rail, ports, pipelines, airports and border posts. It concludes by presenting the prioritised interventions together with an implementation approach.
- **Part III** is the Roads Development Program. It covers the regional roads network, and analyses roads needs from capacity and condition perspectives. It also develops some cross-cutting themes (regional roads classification system, regional roads management system and regional overload control). Regional roads projects are identified and described.
- **Part IV** (this document) is the list of transport projects, together with short profiles for the priority projects.

Parts II and III are drafted so that they can be read stand-alone, i.e. in isolation of the other three parts.

Number	Project Title	Priority Class	Sector	Corridor	Country	Location	Lead Agency	Dimensions	Pre-Feasibility Cost (0.25%)	EIA, Land, Resettlement, etc. (0.15%)	Feasibility Cost (0.25%)	Detail Design Cost (2%)	Works Cost	Works Start	Non-Study Public funds %
<b>RdCap02</b>	Mombasa-Voi Road Capacity Upgrade	Roads Project	Road	Northern	Kenya	From 11.78 km north-west of Mackinnon Rd to 0.63 km west of Voi	KeNHA	57 km road section, adding 28.5 lane km	0.025	0.015	0.025	0.200	9.975	2011	100%
