ACRONYMS .....	vii
<b>CHAPTER ONE</b> .....	<b>1</b>
<b>THE EAST AFRICAN COMMUNITY INTEGRATION PROCESS</b> .....	<b>1</b>
1.1 Introduction.....	1
1.2 Purpose of the Report .....	1
1.3 Progress of the EAC Integration.....	2
1.4 COMESA, EAC and SADC Tripartite Arrangement .....	4
<b>CHAPTER TWO</b> .....	<b>6</b>
<b>OVERVIEW OF MACROECONOMIC DEVELOPMENTS</b> .....	<b>6</b>
2.1 Recent Economic Developments in the World and EAC.....	6
2.1.1 Global Macroeconomic Environment and Trade developments .....	6
2.1.1.1 Macroeconomic Environment .....	6
2.1.1.2 Trade developments.....	8
2.1.2 EAC Macroeconomic Environment .....	10
2.1.2.1 Economic Growth.....	10
2.1.2.2 Annual Average Inflation Rates: .....	11
2.1.2.3 Exchange Rates.....	12
2.1.2.4 Balance of Payments and Foreign Exchange Reserves .....	13
2.1.2.5 National Savings.....	15
2.1.2.6 External Debt .....	15
<b>CHAPTER THREE</b> .....	<b>17</b>
<b>EAC TRADE PERFORMANCE</b> .....	<b>17</b>
3.1 Total Intra-EAC Trade.....	17
3.1.1 Imports.....	18
3.1.2 Exports.....	18
3.2 EAC Trade with the Rest of the World .....	19
3.2.1 Imports.....	21
3.2.2 Exports.....	21
3.3 Rwanda's Trade with the EAC .....	21
3.3.1 Imports.....	22

3.3.2	Exports .....	22
3.4	Burundi's Trade with the EAC .....	22
3.4.1	Imports .....	23
3.4.2	Domestic Exports.....	24
3.4.3	Re-Exports .....	24
<b>CHAPTER FOUR</b>	.....	<b>25</b>
<b>TRADE DEVELOPMENTS IN THE EAC PARTNER STATES</b>	.....	<b>25</b>
4.1	Kenya's International Trade .....	25
4.1.1	Imports .....	26
4.1.2	Domestic Exports.....	26
4.1.3	Re-Exports .....	27
4.1.4	Intra – EAC Trade .....	28
4.2	Tanzania's International Trade .....	31
4.2.1	Imports .....	32
4.2.2	Domestic Exports.....	33
4.2.3	Re-exports.....	34
4.2.4	Tanzania's Intra-EAC Trade.....	34
4.3	Uganda's International Trade .....	36
4.3.1	Imports .....	38
4.3.2	Exports .....	39
4.3.3	Re-Exports .....	39
4.3.4	Intra EAC Trade .....	40
4.4	Rwanda's International Trade.....	42
4.4.1	Imports .....	43
4.4.2	Domestic Exports.....	44
4.4.3	Re-Exports .....	45
4.4.4	Rwanda's Trade with the EAC Partner States .....	46
4.5	Burundi's International Trade.....	47
4.5.1	Imports .....	48
4.5.2	Domestic Exports.....	48
4.5.3	Re-Exports .....	49

<b>CHAPTER FIVE</b> .....	50
<b>SPECIAL CATEGORY CONSIDERATIONS WITHIN EAC CUSTOMS UNION</b> .....	50
5.1 Exemptions and Remissions .....	50
5.2 Sensitive Goods .....	51
5.3 Excisable Products .....	52
5.4 Tariff Reduction Schedule .....	53
5.5 Tariff Bands .....	53
5.6 Exemptions and Excisable Products in Rwanda and Burundi .....	55
<b>CHAPTER SIX</b> .....	56
<b>CUSTOMS REVENUE PERFORMANCE IN EAC</b> .....	56
6.1 General Performance of Customs Revenue .....	56
<b>CHAPTER SEVEN</b> .....	60
<b>INVESTMENT FLOWS IN THE COMMUNITY</b> .....	60
7.1 Policy Framework .....	60
7.2 Investment Climate .....	60
7.3 EAC Foreign Direct Investment Position .....	62
7.3.1 Intra-EAC Investment Flows .....	64
7.4 Number of Approved Projects .....	64
7.5 Employment Creation .....	65
7.6 Sectoral Distribution of Foreign Direct Investment .....	66
7.6.1 Tanzania .....	66
7.6.2 Uganda .....	67
7.6.3 Rwanda .....	68
7.7 Individual Countries' Sources of Investment .....	68
7.7.1 Tanzania .....	68
7.7.2 Uganda .....	69
7.7.3 Rwanda .....	70
7.8 Challenges to Investment Promotion .....	71
<b>APPENDICES</b> .....	72

## FOREWORD

This is the fourth EAC Trade Report since 2005. The EAC Trade Report 2005 set the pace in analysing the trade flows of EAC as a unified trade entity. Over the period the analysis has improved in quality. The 2008 trade flows reflect continued growth of intra-EAC trade. In spite of some trade imbalances which emanate from the inherited historical economic structures of Partner States, some reversal of the hitherto skewed trade pattern is beginning to emerge whereby Partner States that were predominant importers of goods from within EAC are also making entry into the export arena.

The report further manifests a commitment of Partner States in the implementation of the Customs Union particularly the uniform application of the customs instruments. In addition, the report is a tool which will enable EAC to model and shape its trade policy with other regions. The ongoing tripartite trade framework being developed between EAC, COMESA and SADC will be informed by the information provided in this and similar trade reports.

Statistical data are a pivotal factor at all the integration stages of the EAC and become increasingly pertinent as the region moves towards a common market and subsequently a monetary union. Under the Customs Union, production and exchange of customs and trade statistics and information is one of the areas of co-operation and the EAC Customs Management Act provides for the compilation and dissemination of such statistics. This report is therefore a beginning of the harmonisation and development of regional statistical information. Trade information will particularly be useful when rolling out to cover intra-regional flows of other factors of production under the common market.

I recognise and appreciate the efforts of experts from the Revenue Authorities, Bureaus of Statistics, Central Banks and Investment Centres for their valuable input in compiling this report. The team from the Directorates of Customs, Trade and Statistics at the EAC Secretariat led by the Directors of Trade and Customs need special mention in coordinating the whole exercise from compilation, analysis to production of this report.

We commend the Development Partners, particularly the European Union who have since 2005 funded the preparation of EAC trade reports through the Regional Integration Support Programme.

The production of the trade reports has been made possible by the reforms and modernisation being undertaken by customs administration through enhanced computerisation and administrative efficiencies that enable the production of quality data. The quality and timely production of this Trade Report will improve the project relating to the interconnectivity of customs systems which is being coordinated by the Secretariat which is expected to become fully functional by 2012.

## CHAPTER ONE

### THE EAST AFRICAN COMMUNITY INTEGRATION PROCESS

#### 1.1 Introduction

The main goal for transforming the East African Community into an integrated economic and political entity is underpinned by the desire of the EAC Partner States to attain sustainable and equitable growth and development leading to improved standards of living of the people through increased competitiveness, value-added production, trade and investment.

The integration process of EAC is guided by the Treaty for the Establishment of East African Community and the Five Year Development Strategies. The first East African Co-operation Development Strategy (1997-2000) focused on the development of the policy framework for regional co-operation. It culminated in the signing of the Treaty for the Establishment of the East African Community. The Second East African Community Development Strategy (2001-2005) focused on the implementation of selected regional projects and programmes; institutional development; and the operationalization of the East African Community Customs Union which commenced in January 2005.

The current Development Strategy (2006-2010) focuses on the consolidation of the Customs Union as a foundation for the establishment of a Common Market in 2010. The EAC has also been enlarged through the admission of Republics of Rwanda and Burundi effective from July 2007.

Since the commencement of the Customs Union, EAC has registered increased trade amongst the Partner States signifying a positive effect of the EAC Customs Union. Associated with this, the Partner States have also been reporting increased revenues, and investment flows. The period under review registered significant increases in intra and extra trade flows.

#### 1.2 Purpose of the Report

This report provides a continuous assessment of trade developments in EAC since the commencement of the Customs Union and as progressive elimination of internal tariffs enters its fourth year. The report provides facts and figures essential for regional and

national policy formulation, planning and management. The data provide good reference material for research and the academia.

The 2008 report builds on the 2007 report by making detailed analysis of the foreign trade of the five Partner States.

The report is divided into 8 chapters, starting with an introduction in chapter one and an overview of macroeconomic developments at international and regional level in chapter two. The third chapter discusses trade developments among the EAC Partner States and other regions. Chapter four and five analyses trade performance of each of Partner States while chapter six is a review of customs revenue performance of the Partner States. Chapter seven covers investment flows into the region and chapter eight presents the conclusion and way forward

### **1.3 Progress of the EAC Integration**

The Treaty on the Establishment of the East African Community envisages integration among the East African countries from a Customs Union to a Common Market, then a Monetary Union and ultimately a Political Federation (Article 5(2)).

The integration process of the EAC commenced with establishment of the Customs Union in 2005. The implementation of the next stage of Common Market is scheduled to commence in 2010. A Monetary Union is planned for in 2012 and ultimately a Political Federation. The programme for these stages has already been agreed upon and the negotiation of the Common Market Protocol is on course.

The Protocol establishing the East African Customs Union guides the implementation process of the customs union along with other instruments. The underpinning within the EAC Customs Union includes the removal of customs duties and charges of equivalent effects on internal trade, elimination of all non-tariff barriers on trade; and establishment and maintaining a Common External Tariff (CET).

The implementation of the Customs Union has resulted in the harmonisation and uniform application of the Community customs laws in the original three Partner States, uniform application of the common external tariff, asymmetrical reduction of internal tariff as

envisaged in the Protocol which entered its fourth round of reduction in January 2008 and will reach zero tariff on 1<sup>st</sup> January 2010.

In addition, there are annual pre-budget consultation among the ministers of finance in order to review and agree on common areas for incorporation in the national budgets. Training and sensitisation of customs officials and stakeholders and development of joint programmes enhancing information exchange are on course. The implementation of CET as earlier indicated is going on well. Contrary to the initial fears of revenue losses resulting from the implementation of the Customs Union, revenue yields in the three original Partner States have continuously increased. Rwanda and Burundi are expected to commence the implementation of the customs union in July 2009.

Non-tariff barriers (NTBs) to trade however, remain a major challenge. The Monitoring Mechanism for Identification and Elimination of NTBs were developed. The successful implementation of the Mechanism has been achieved through the establishment and operationalization of the National Monitoring Committees (NMCs) on NTBs in all Partner States. Further, a time-bound framework categorising the NTBs into eight clusters has also been developed. The clusters are:

- (i) Customs documentation procedures
- (ii) Immigration procedures
- (iii) Cumbersome inspection requirements
- (iv) Police road blocks
- (v) Varying trade regulations among the three EAC countries
- (vi) Varying, cumbersome and costly transiting procedures in the EAC Partner States
- (vii) Duplication of functions within agencies involved in customs activities
- (viii) Business registration and licensing.

In this regard, various stakeholders including the East African Business Council (EABC) continue to work closely with the EAC Secretariat and Partner States towards the successful operationalization of the Mechanism and within the time-bound framework.

Preparations for implementation of the EAC Competition Act 2006 has commenced and draft regulations are awaiting approval by the Council. In the area of harmonisation of standards for goods traded amongst Partner States, 1000 standards have been harmonised as EAC standards.

Remarkable progress has also been made in the negotiations of the EAC Common Market Protocol and its implementation is expected in 2010.

In November 2007, the Partner States signed an interim EAC/EU Economic Partnership Agreement (EPA) which replaced the non-reciprocal Cotonou Agreement and provides the legal framework for the trade between the EU and the EAC Partner States pending the conclusion of EAC- EU- EPA by July 2009.

#### **1.4 COMESA, EAC and SADC Tripartite Arrangement**

Over the last five years, COMESA, EAC and SADC have cooperated in the coordination and harmonization of programmes through a Tripartite Task Force (TTF) made up of the three Chief Executives, supported by their officials of the secretariats of the three regional economic communities. In the context of this cooperation framework, some work has been done in the review of the rules of origin, simplification of customs procedures and documentation, rationalization of COMESA and SADC transit bond guarantee schemes, development of customs training and capacity building programmes, harmonisation of standards, coordination of competition policies and institutional frameworks, identification, monitoring the removal of non-tariff barriers (NTBs) and cooperation and development of infrastructure.

The three secretariats, as the Tripartite Task Force, have been cooperating under a loose framework in the harmonisation and rationalisation of programs and instruments. With an agreement establishing a comprehensive legal and formal tripartite framework, implementation of the tripartite programs is expected to be formalised and streamlined into the regional integration and national processes of the member states. . A Tripartite Summit of Heads of State and Government of the three RECs was held in Kampala, Uganda on 22<sup>nd</sup> October 2008 and this provided guidance on how to advance cooperation and coordination of programmes under the tripartite arrangement. The Tripartite Summit agreed on the following key areas of cooperation:

- (a) a program of harmonization of trade regimes of the three RECs

- (b) free movement of business persons within the three RECs
- (c) joint implementation of regional infrastructure projects and programmes, and
- (d) legal and institutional arrangements for regional cooperation.

The Summit agreed to establish an FTA with the ultimate goal of establishing a Customs Union

## CHAPTER TWO

### OVERVIEW OF MACROECONOMIC DEVELOPMENTS

#### 2.1 Recent Economic Developments in the World and EAC

This section provides an overview of the global macro-economic and trade developments of the EAC at the macro-economic level.

##### 2.1.1 Global Macroeconomic Environment and Trade developments

###### 2.1.1.1 Macroeconomic Environment

According to the World Trade Report 2009, world economic growth dropped to 1.7 percent from 3.5 per cent in 2007. This slow growth was attributed to many factors such as the mortgage crisis in the United States of America, unfolding credit crisis, decline of the United States dollar vis-à-vis other major currencies, persistence of large global imbalances and high oil prices. While the crisis originated in developed countries, which also led to the economic downturn, developing countries were also hit hard through capital reversals, rising borrowing costs, collapsing world trade and commodity prices, and reduced remittance flows.

**Table 2.1: GDP Growth Rates (Annual percent changes) for Selected World Economies, 2006 - 2008**

Years	2006	2007	2008
<b>World Output</b>	3.7	3.5	<b>1.7</b>
<b>North America</b>	2.9	2.1	<b>1.1</b>
<b>United States</b>	2.8	2.0	<b>1.1</b>
<b>South and Central America</b>	6.1	6.6	<b>5.3</b>
<b>Europe</b>	3.1	2.8	<b>1.0</b>
<b>European Union (27)</b>	3.0	2.8	<b>1.0</b>
<b>Commonwealth of Independent States (CIS)</b>	7.5	8.4	<b>5.5</b>
<b>Africa</b>	5.7	5.8	<b>5.0</b>
<b>Middle East</b>	5.2	5.5	<b>5.7</b>
<b>Asia</b>	4.6	4.9	<b>2.0</b>
<b>China</b>	11.6	11.9	<b>9.0</b>
<b>Japan</b>	2.0	2.4	<b>-0.7</b>
<b>India</b>	9.8	9.3	<b>7.9</b>
<b>Newly industrialized economies (Hong Kong, China; Republic of Korea; Singapore and Chinese Taipei)</b>	<b>5.6</b>	<b>5.6</b>	<b>1.7</b>

*Source: World Trade Report 2009*

Global FDI flows were severely affected by the economic and financial crisis. Amid this crisis, global FDI inflows fell from a historic high of \$1,979 billion in 2007 to \$1,697 billion in 2008, a decline of 14 percent. The financial crisis changed the FDI landscape such that investments to developing and transition economies surged, increasing their share in global FDI flows to 43 percent in 2008. This was partly due to a decline in FDI flows to developed countries (29 percent). In Africa, inflows rose to a record level, with the fastest increase being in West Africa (a 63 percent rise over 2007); inflows to South, East and South-East Asia witnessed a 17 percent expansion and hit a new high; FDI to West Asia rose in the sixth consecutive year; inflows to Latin America and the Caribbean rose by 13 percent; and the expansion of FDI inflows to South-East Europe and the Commonwealth Independent States (CIS) rose for the eighth year running.

Selected macroeconomic indicators by region for 2007 and 2008 are shown in the Table 2.2.

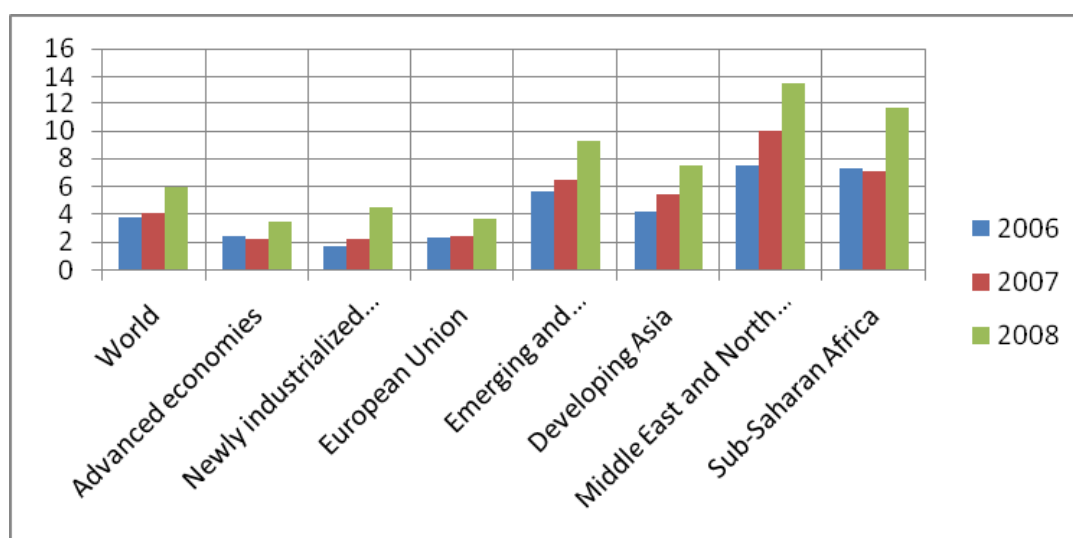

**Table 2.2: Selected Economic Indicators by Region, 2007 and 2008**

INDICATOR	REGION	2007	2008
<b>Gross National Savings</b> (% of GDP)	World	24.4	24.2
	Advanced Economies	20.5	19.4
	Euro Area	22.4	21.6
	European Union	21.1	20.6
	Africa	25.8	26.0
	Sub Sahara Africa	20.3	20.8
<b>Investment</b> (% of GDP)	World	23.7	24.0
	Advanced Economies	21.2	20.8
	Euro Area	22.1	22.2
	European Union	21.7	21.6
	Africa	24.8	24.9
	Sub Sahara Africa	20.5	22.4
<b>Inflation</b> (Annual Average)	World	4.0	6.0
	Advanced Economies	2.2	3.4
	Euro Area	2.1	3.3
	European Union	2.4	3.7
	Africa	6.3	10.1
	Sub Sahara Africa	7.2	11.7

Source: *World Economic Outlook, April 2009*

All regions recorded a marginal decline in Gross National Savings except Africa where the global investment increased marginally while the advanced economies recorded a decline of investments by 0.4 points due global economic crisis. All the regions experienced upward inflationary pressure. World inflation averaged 5.9 percent in 2008 compared to 4.0 percent in 2007. This was attributed to the sharp increase in prices for primary commodities and oil. The Figure 2.1, illustrates the percentage change in inflation for selected regions.

**Figure 2. 1: Average Inflation for Selected Regions**

*Source: World Economic Outlook April 2009*

### 2.1.1.2 Trade developments

Growth in real terms (i.e. discounting changes in prices) in merchandise trade slowed significantly in 2008 to 2 per cent, compared with 6 per cent in 2007. In US dollar terms (which includes price changes and exchange rate fluctuations), world merchandise exports increased by 15 per cent to US\$ 15.8 trillion in 2008 from US\$13.6 trillion in 2007, while exports of commercial services rose by 11 per cent to US\$ 3.7 trillion in 2008 from US\$ 3.3 trillion in 2007.

The share of developing economies in world merchandise trade set new records in 2008, with exports rising to 38 percent from 15 percent in 2007 of the world total and imports increasing to 34 percent from 18 percent in 2007.

As a result of the economic crisis, annual trade figures in US dollar terms were strongly influenced by changes in oil and gas prices and exchange rates in 2008. Despite the fact that fuel prices were lower at the end of 2008 than in 2007, average prices for 2008 were about 40 per cent higher than 2007. This raised total merchandise imports for most countries.

In Asia, the export growth rates declined dramatically from 11.5 percent in 2007 to 4.5 percent in 2008. Similarly, import fell sharply to 4.0 percent in 2008 from 8.0 percent in 2007.

At regional level, Europe registered the slowest export growth in 2008, with an increase of 0.5 per cent, down from 4.0 per cent in 2007. Import growth were negative in 2008, falling by 1.0 percent. North America's exports grew by 1.5 per cent, while imports dropped by 2.5 per cent in 2008.

The table below provides an overview of merchandise trade for selected regions.

Table: 2.3 World Merchandise Trade by Region (Annual Percentages at Constant Prices, 2007 and 2008)

	GDP		Exports		Imports	
	2007	2008	2007	2008	2007	2008
<b>World</b>	3.5	1.7	6.0	2.0	6.0	2.0
<b>North America</b>	2.1	1.1	5.0	1.5	2.0	-2.5
<b>United States</b>	2.0	1.1	7.0	5.5	1.0	-4.0
<b>Europe</b>	2.8	1.0	4.0	0.5	4.0	-1.0

## 2.1.2 EAC Macroeconomic Environment

Below is a brief review of the macroeconomic performance of the EAC region.

### 2.1.2.1 Economic Growth

All countries in the region except Kenya experienced a higher growth rate in 2008 compared with 2007.

Uganda's real growth rate, remained almost stable at 8.3 percent in 2008, compared to 8.2 percent in 2007. The sources of Uganda's growth were the agricultural sector that enjoyed a robust demand in the region, the services sector that grew by 10.6 percent in real terms on account of increased investment in the financial sector, transport and communication.

Kenya's real GDP grew by 1.7 percent in 2008 compared to 7.1 percent in 2007. The slowdown in economic growth reflected external and domestic developments. In particular, political disturbances that took place early in 2008 coupled with unfavourable weather conditions led to a slowdown in key economic activities. The global economic crisis in the second half of 2008 contributed to a slowdown in world demand.

Tanzania's real GDP grew by 7.4 percent in 2008 compared to 7.1 percent in 2007. The increase in the growth rate was mainly attributed to an increase in economic activities in communication, mining, financial intermediation, trade, construction, health and agriculture.

Rwanda's real GDP in constant prices grew by 11.2 percent in 2008 compared to 5.5 percent in 2007. The major sources of growth in 2008 were the agriculture, forestry and fishing activity sector that contributed 33.0 percent of the GDP while industry and services accounted for 15.0 percent and 45.0 percent of GDP, respectively.

Burundi's real GDP growth was 4.3 percent in 2008 compared to 3.2 percent in 2007. The improved economic performance is attributed to better performance of primary activities especially coffee. Coffee production amounted to 16.5 million tonnes in 2008/09 compared to 8.0 million tonnes in the 2007/08.

### **2.1.2.2 Annual Average Inflation Rates:**

In 2008, the region experienced inflationary pressures caused by high oil and commodity prices that persisted for the larger part of the year in the world market. Inflationary pressures began to subside in the last quarter of the year following the drop in international prices as a result of the global financial and economic crisis.

In Tanzania, the overall inflation increased from an annual average of 7.0 percent in 2007 to 10.3 percent in 2008, due to high oil prices in international markets coupled with food shortages.

The overall inflation in Kenya increased from 9.8 percent in 2007 to 26.2 percent in 2008. The increase in inflation was a result of high prices of food due to increased costs for fertilizers and other agricultural inputs. Also the post election disturbance early in 2008 disrupted distribution of the supply of key food items from surplus to deficit regions. High international oil prices in the world market also contributed significantly to the increase in transport costs, a key component of the consumer basket.

In Uganda, overall inflation that had been maintained at single digit level during the past decade doubled to 12.0 percent in 2008 from 6.1 percent in 2007. This was due to exogenous factors associated with the post election crisis in Kenya that disrupted the supply of imported goods in the first quarter of the year, high food prices due to the high demand from the region, changes in international oil and commodity prices and domestic food supply related constraints.

Rwanda was also not sheltered from the worldwide inflationary pressures caused by rising energy and food prices since the last quarter of 2007, despite improved domestic production recorded during the last two years. Consumer prices of foodstuffs, beverages, fuel and all utilities all rose on account of the imported inflation. The overall inflation increased from 6.6 percent in December 2007 to 22.3 percent in December 2008, the highest level recorded since 1995. The annual average inflation rose from 9.1 percent in 2007 to 15.4 percent in 2008.

Burundi's overall inflation, measured by the consumer price index (CPI), more than doubled to an average of 24.5 percent in 2008 from 8.3 percent in 2007. The rise was due to food inflation and imported inflation arising from high global oil and food prices experienced for most of 2008.

### 2.1.2.3 Exchange Rates

The region generally witnessed a deteriorated exchange rate against the US dollar.

In 2008, the Kenya shilling depreciated against major international currencies. Against the US dollar the shilling traded at Ksh 69.2 per US dollar compared to Ksh 67.3 per US dollar in 2007. The shilling however appreciated against the sterling pound reflecting the British pound losses in global markets following the onset of the global financial crisis. Within the East African Community, the Kenya shilling depreciated against the Tanzania and Uganda shillings by 7.2 percent and 7.7 percent respectively. It however gained against Rwanda and Burundi Francs by 17.2 percent and 9.9 percent respectively.

The Uganda shilling appreciation against the US dollar observed in the first three quarters of 2008 reverted into strong depreciation of about 19.0 percent, in the September 2008 to December 2008 period, on account of portfolio capital outflows emanating from risk averseness of foreign investors at the onset of the global financial and economic crisis. The shilling thus remained largely stable at an average mid rate of Ushs. 1,720.4 in 2008 compared to Ushs. 1,723.5 per US dollar in 2007. The exchange rate continued to be market determined with occasional Central Bank intervention to dampen volatility during the year.

The annual average exchange rate for the Tanzanian Shilling (TZS) against the US dollar stood at TZS 1,196.3 per US\$ in 2008 compared to TZS 1,244.1 per US\$ in 2007. The exchange rate continued to be market determined with the Central Bank intervention geared towards smoothening exchange rate volatility.

The value of Rwandese Franc (FRW) against the US dollar depreciated by 2.5 percent from 545.5 in December 2007 to 558.9 in December 2008. On an annual basis however, the FRW remained at the 2007 average rate of 547.0 per US dollar.

Due to the continued market liberalisation efforts undertaken by the Burundi, the difference between the official rate and the rate on black market dropped from 2.0 percent in 2007 to about 1.2 percent in 2008. Like most regional currencies however, the Burundi franc depreciated against the US dollar by 9.6 percent from BIF 1,081.9 in 2007 to BIF 1,185.7 in 2008.

#### **2.1.2.4 Balance of Payments and Foreign Exchange Reserves**

Adjustment of the regional economies to exogenous shocks experienced in 2008 was largely through the balance of payments. Consequently, all the EAC Partner States recorded a decline in overall balance of payments position.

In Tanzania, the overall balance of payments declined from a surplus of US\$ 412.6 million in 2007 to a surplus of US\$ 108.4 million in 2008. This development is largely attributed to widening current account deficit which went up by 61.0 percent to US\$2,542.5 million. The deficit was driven primarily by the increase in the value of import of goods and services compared to the value of exports of goods and services. The value of merchandise imports (fob) increased from US\$ 4,860.6 million in 2007 to US\$ 6,483.4 million in 2008. This was due to an increase in the value of imports of capital and intermediate goods, and the continued increase in the price of oil in the world market. However, foreign reserves increased by 5.7 percent to US\$ 2,912.0 million in 2008, from US\$ 2,753.7 million in 2007. The reserves position in 2008 was enough to cover 4.5 months' imports of goods and services compared to 4.1 in 2007.

Kenya's balance of payments in 2008 was influenced by developments in the global economy. The overall balance of payments position declined from a surplus of US\$ 939.6 million in 2007 to a deficit of US\$ 479.4 million. The worse balance of payments position reflected the deterioration in the current account deficit which declined further to US\$ 1,978.3 million in 2008 from US\$ 1,034.5 million in 2007. This was mainly due to the merchandise trade deficit which increased to US\$ 5,649.2 million in 2008 from US\$ 4,256.0 million in 2007 as a result of a higher import oil bill. On the other hand, the services trade surplus improved from US\$ 3,221.6 million in 2007 to US\$ 3,670.9 million in 2008. The surplus on the capital and financial account declined from US\$ 2,229.6 million in 2007 to US\$ 1,171.7 million reflecting reduced foreign direct investment and short term capital

flows. Consequently, official foreign exchange reserves declined to US\$ 2,850.9 million by the end of December 2008 from US\$ 3,603.4 million at the end of 2007.

Uganda's overall balance of payments position deteriorated from a surplus of US\$ 863.2 million in 2007 to US\$ 300.3 million in 2008, due to a decline in both the current, capital and financial accounts. The deterioration of the current account was due to higher imports associated with high international prices observed in the first three quarters of 2008, and higher services and income outflows that surpassed the improved export performance. Uganda's total exports increased by about 35.2 percent to US\$ 2,703.5 million on account of robust Informal Cross Border Trade (ICBT) to the region particularly South Sudan and Democratic Republic of Congo. While formal exports to the developed and emerging markets declined due to the global crisis, Uganda's exports to the region increased substantially underpinning the need for Partner States to emphasise regional infrastructure, trade and monitoring of the informal trade and remittance flows. The capital and financial account declined largely due to the exit of portfolio investors following the onset of the global financial crisis in the last quarter of the year. Foreign reserves in Uganda consequently declined from US\$ 2.6 billion at the end December 2007 (equivalent to about 6 months of future imports of goods and services) to US\$ 2.3 billion by end December 2008 equivalent to 5 months of imports. Much of the decline in foreign reserves was due to intervention by BOU in the foreign exchange market to maintain stability especially in the last quarter of the year.

Rwanda's overall BOP position declined in 2008. The current account deficit deteriorated to US\$ 253.0 million in 2008 from US\$ 83.5 million in 2007, on account of 29.4 percent rise in the deficit on goods, services and income accounts. Net current transfers however improved by 12.4 percent to US\$ 518.6 million in 2008. The capital and financial accounts also deteriorated in 2008. Gross official reserves amounted to US\$ 596.5 million, equivalent to 5.5 months of imports of goods and services by end 2008.

Burundi's balance of payment deficit increased from US\$ 115.7 million in 2007 to US\$ 223.5 million in 2008, largely on account of the deterioration of the current account balance. The trade deficit increased to US\$ 280.4 million compared with US\$ 204.7 million in 2007. The current transfers also dropped from US\$ 241.2 million in 2007 to US\$ 186.2 million in

2008. This is attributed to the economic meltdown experienced in most advanced and emerging economies during the last quarter of 2008. By end 2008, the reserves position was US\$ 266.6 million equivalent to 6.3 months of imports of goods and services.

#### **2.1.2.5 National Savings**

Gross savings in the region remain low compared to ratios of over 40 percent for the Middle East and developing Asian countries.

The ratio of gross savings to GDP in Kenya and Tanzania increased from 13.1 percent and 6.7 percent in 2007 to 14.8 percent and 11.5 percent in 2008, respectively.

In Rwanda, the level of gross national savings (GNS) increased to 15.4 percent of GDP from an average of 12.5 percent recorded over the last 5 years.

Uganda's GNS declined from 22.4 percent in 2007 to 18.3 percent in 2008, largely due to reduced net current transfers associated with the turbulent economic conditions in the advanced and emerging economies. Gross domestic savings (GDS) as a ratio to GDP though stable at around 10 percent dropped to 9 percent in 2008 due to increased consumption associated with the high inflation.

Burundi's national savings decreased from 9.4 percent of GDP in 2007 to 6.8 percent of GDP in 2008 due to reduced current transfers.

#### **2.1.2.6 External Debt**

Public Debt for most countries in the region remained largely sustainable on account of sound debt management practices, economic buoyancy and debt relief under the HIPC and Multilateral Debt Relief Initiatives (MDRI) arrangements.

Tanzania's national debt stock declined slightly from US\$ 7,041.2 million in December 2007 to US\$ 6,263.0 million by end 2008. Domestic debt consisting of largely government securities amounted to US\$ 1,677.0 million, equivalent to 27.0 percent of the total national debt while external debt was US\$ 4,586.0 million.

Although Uganda's external debt stock increased from US\$ 1,590.3 million as at December 2007 to \$ 1,818.6 million at end December 2008, its debt sustainability measured as a ratio

of debt service (maturities including IMF obligations) to total exports of goods and services improved from of 4.0 percent to 2.7 percent over the review period.

Kenya's external debt increased by 1.3 percent from US\$ 5,899.3 million in 2007 to US\$ 5,977.0 million in 2008.

Rwanda's total external debt stock increased by 14.4 percent from US\$ 574.2 million in 2007 to USD 656.8 millions in 2008 attributed to new multilateral loan contractual disbursements made by AFDB, IDA, OPEC, IFAD and IMF.

Burundi's external debt decreased from US\$ 1,352.8 million in 2007 to US\$ 1,322.4 million, with multilateral debt accounting for about 85.3 percent of total external debt. Burundi's debt sustainability measured by total external debt as a ratio of GDP also improved from 151.1 percent in 2007 to 139.8 percent in 2008, reflecting the improved domestic economic performance and debt relief initiatives of the IMF.

## CHAPTER THREE

### EAC TRADE PERFORMANCE

#### 3.1 Total Intra-EAC Trade

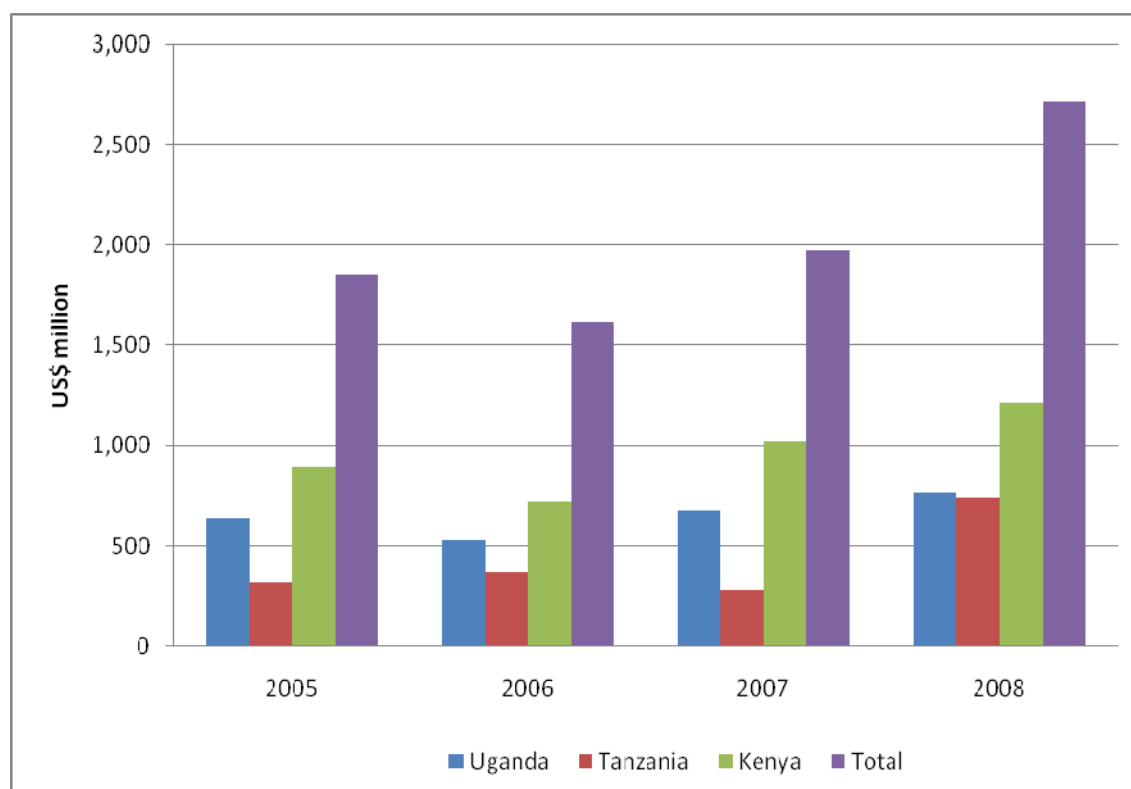

In 2008, total intra-EAC<sup>1</sup> trade increased by 37.6 percent reaching a record value of US\$ 2,715.4 million compared to the previous year. During the period under review, Tanzania recorded high intra-EAC trade flows which more than doubled from US\$279.5 million in 2007 to US\$ 735.8 million in 2008. But this reflects automation of data compilation processes at the entry point bordering with other EAC Partner States. Overall, Kenya continued to dominate the EAC regional trade, accounting for 44.8 percent of total value of trade and recorded a surplus in this trade. Uganda and Tanzania accounted for 28.1 percent and 27.1 percent of the total intra-EAC trade respectively. Table 3.1 presents details on Intra-EAC trade for the period 2005 to 2008.

**Table 3.1: Total Intra-EAC Trade, 2005-2008 (US\$ million)**

Country	Imports				Percentage Change		
	2005	2006	2007	2008	2006	2007	2008

<sup>1</sup> Intra-EAC trade concerns the Partner States that were EAC members as at 2006

**Figure 3.1: Total Intra-EAC Trade, 2005-2008 (US\$ million)**

Source: Partner States Revenue Authorities, Central Banks and National Statistics Offices

### 3.1.1 Imports

The total intra-EAC imports increased by 42.3 percent to US\$ 1,173.1 million in 2008 compared to US\$ 824.6 million in the previous year. The rise in intra-EAC imports was accounted for by increased imports of capital and consumer goods. Uganda remained a major importer in intra-EAC trade accounting for 48.3 percent of total imports while Tanzania and Kenya accounted for 36.3 percent and 15.4 percent respectively.

### 3.1.2 Exports

The total intra-EAC exports rose to US\$ 1,542.2 million in 2008 compared to US\$ 1,148.6 million registered the previous year. Tanzania recorded high growth rate in intra-EAC exports while those of Uganda and Kenya declined compared to the performance in the previous year. Likewise, Tanzania's share in intra-EAC exports increased to 20.1 percent while those of Uganda and Kenya declined to 12.7 percent and 67.2 percent respectively when compared to the previous year.

### **3.2 EAC Trade with the Rest of the World**

Total EAC trade with the rest of the world increased by 23.7 percent to US\$ 32,406 million in 2008 compared to an increase of 26.8 percent in 2007. The increase, partly reflects the 26.2 percent increase in exports on account of high commodity prices in international markets. Total imports into the EAC region also grew by 22.7 percent from US\$ 18,403 million to US\$ 22,574 million due to a high import bill for oil. The deficit on the balance of trade therefore widened from US\$ 10,609 million in 2007 to US\$ 12,741 million in 2008. Total imports accounted for about 70 percent of total EAC trade during 2008.

The share of total intra-EAC trade to total trade increased from 7.5 percent in 2007 to 8.4 percent in 2008. Intra-EAC trade was mainly in agricultural commodities and manufactures. While the EU bloc took the largest share of EAC trade accounting for 18.4 percent in 2008, it however was a decline compared with 21.9 percent recorded in 2007 (Table 3.2). Trade with the EU was mainly in agricultural commodities, minerals and capital goods.

The improvement in total intra-EAC as a share of total trade is due to the diversification of trade towards regional trading blocs. The common market protocol which will be in place in 2010 is expected to further promote trade within this region.

**Table 3.2: Trade Flows for EAC, 2005-2008 (US\$ million)**

### 3.2.1 Imports

Imports into the EAC region increased from US\$ 18,403 million in 2007 to US\$ 22,754 million in 2008. This reflects a high oil import bill due to high international fuel prices which prevailed for most of 2008. Oil imports accounted for between 20 and 25 percent of total EAC imports. The proportion of total intra-EAC imports to total EAC imports also increased from 4.5 percent in 2007 to 5.2 percent in 2008.

### 3.2.2 Exports

Total EAC exports increased by 26.2 percent from US\$ 7,794 million in 2007 to US\$ 9,833 million in 2008. Exports to COMESA and EU blocs accounted for 19.4 percent and 23.3 percent having increased from 17 percent and 17.9 percent respectively. The share of total intra-EAC exports to total EAC Exports increased from 14.7 percent to 15.7 percent in 2008. The share of EAC exports to USA declined from 4.7 percent to 3.8 percent in 2008. This could be attributed to subdued demand in the USA which was the centre of the global financial crisis. The share of intra-EAC exports to SADC declined from 6.8 percent to 3.6 percent in 2008.

### 3.3 Rwanda's Trade with the EAC

Rwanda's total trade with EAC Partner States amounted to US\$ 337.6 million in 2008 compared to US\$ 237.8 million in 2007, which is about 27 percent of total trade. During the period under review Rwanda's trade deficit widened from US\$ 162.0 million to US\$ 261.9 million reflecting increased imports.

**Table 3.3: Rwanda's Trade with the EAC (US\$ Million)**

Trade Flows	2007	2008	% change
Total Imports from EAC	199.9	299.8	49.97
Total Exports to EAC	37.9	37.9	-0.2
Total EAC Trade	237.8	337.6	41.97

Source: Rwanda Revenue Authority

### 3.3.1 Imports

Rwanda's imports from the EAC region increased from US\$ 199.9 million in 2007 to US\$ 299.8 million in 2008. As a percentage of the total Rwanda's trade, the imports from EAC in 2007 and 2008 were 23.1 percent and 24.2 percent respectively. Portland cement, fertilizers, salt, mineral fuel and oils, iron and steel, cereals and soaps, dominated the imports from EAC in 2008.

### 3.3.2 Exports

Rwanda's exports to the EAC region remained stable at US\$ 37.9 million in 2008. Total exports to EAC in 2007 and 2008 accounted for 16.0 percent and 11.2 percent of Rwanda's total trade with EAC respectively. Tea, coffee, minerals, dried leguminous vegetables and fruits dominated exports to EAC. Rwanda's exports to Kenya included tea in transit for auction in Mombasa.

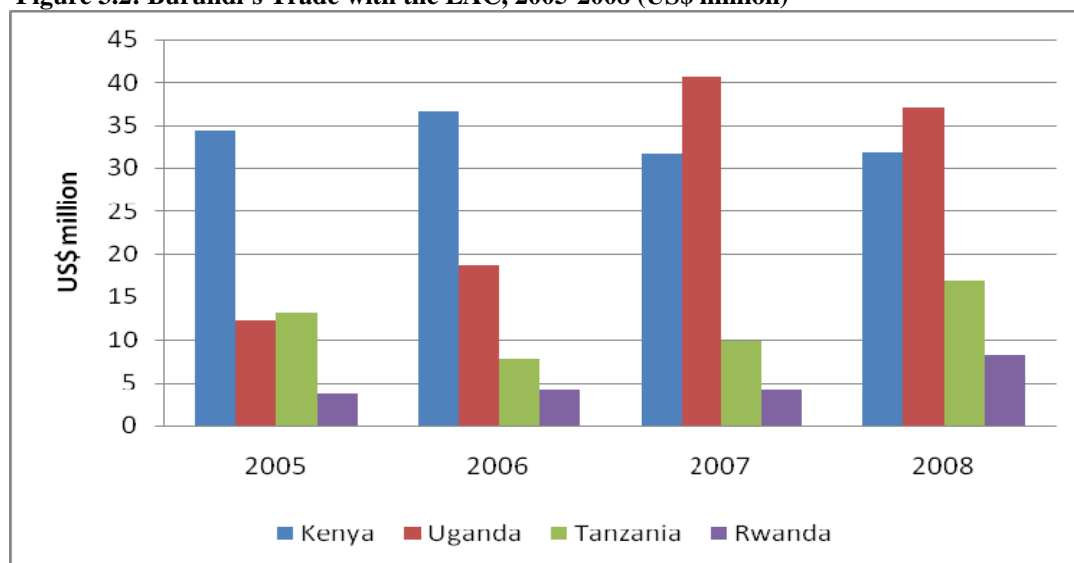

## 3.4 Burundi's Trade with the EAC

Burundi's trade with EAC Partner States increased from US\$ 86.6 million in 2007 to US\$ 94.0 million in 2008, representing an increase of 8.6 percent. Most of the increase was attributed to imports which grew from US\$ 79.5 million in 2007 to US\$ 84.7 million in 2008. Total exports increased from US\$ 7.0 million in 2007 to US\$ 9.3 million in 2008. Burundi's intra-EAC trade deficit increased to US\$ 75.4 million in 2008 from US\$ 72.5 million in 2007.

**Table 3.4: Burundi's Trade with the EAC (US\$ Million)**

**Figure 3.2: Burundi's Trade with the EAC, 2005-2008 (US\$ million)**

Source: Burundi Central Bank and Customs Department

### 3.4.1 Imports

Total imports from EAC Partner States increased from US\$ 79.5 million in 2007 to US\$ 84.7 million in 2008. The increase was partly accounted for by the increase in imports from Tanzania and Rwanda. However, Kenya and Uganda had larger shares of imports from the EAC. The major items imported from Kenya include glass and glassware, iron and steel and dairy products, while those from Uganda were cement, animal and vegetable fats and oil.

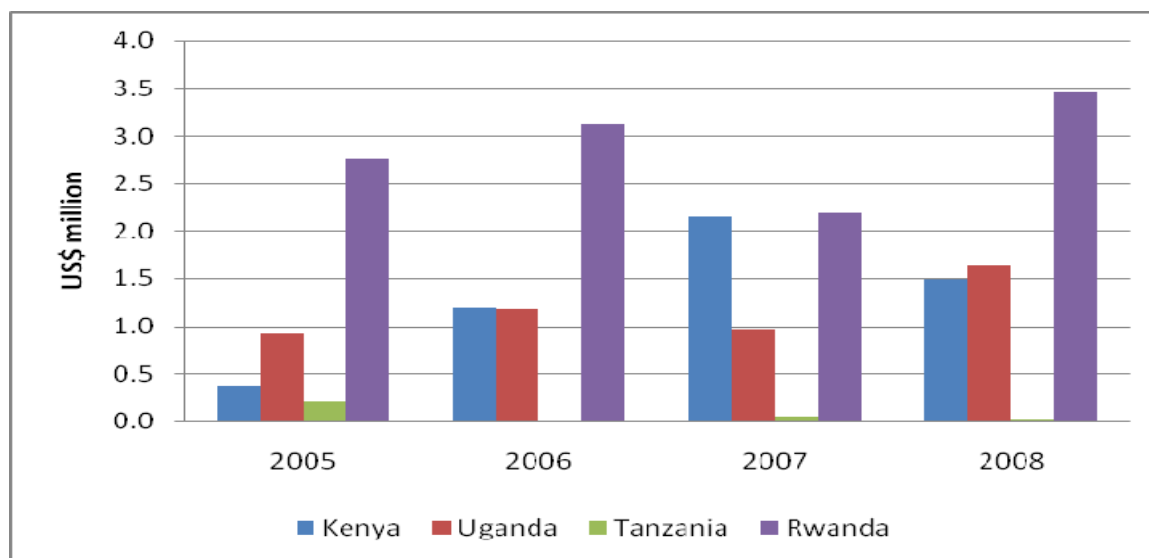

**Figure 3.3: Burundi's Imports from EAC, 2005-2008 (US\$ million)**

Source: Burundi Central Bank and Customs Department

### 3.4.2 Domestic Exports

Burundi's domestic exports to EAC Partner States increased by 23.8 percent to US\$ 6.6 million in 2008 from US\$ 5.3 million in 2007. The increase reflects growth in exports to Uganda and Rwanda. Major exports to Uganda were skins, cigarettes, cotton and fruits, while exports to Rwanda included beer, cigarettes, cotton, palm oil and sugar.

**Figure 3.4: Burundi's Total Domestic Exports to the EAC, 2005-2008 (US\$ million)**

Source: Burundi Central Bank and Customs Department

### 3.4.3 Re-Exports

In 2008, Burundi's intra EAC re-exports increased to US\$ 2.7 million from US\$ 1.7 million recorded the previous year. Re-exports to EAC Partner States as a share of total exports in 2008 increased to 28.9 percent from 24.1 percent in 2007. The items re-exported from Burundi include gold, zinc and articles thereof, miscellaneous manufactured articles, iron and steel and electrical equipment.

**Table 3.5: Burundi's Re-exports to the EAC, 2006 - 2008 (US\$ Million)**

Intra-EAC flows	2006	2007	2008

## CHAPTER FOUR

### TRADE DEVELOPMENTS IN THE EAC PARTNER STATES

#### 4.1 Kenya's International Trade

Kenya's total trade increased by 23.4 percent from US\$ 13,069 million in 2007 to US\$ 16,127 million in 2008, reflecting increased growth in imports and exports. The trade deficit, however, widened from US\$ 4,909 million in 2007 to US\$ 6,154 million in 2008. This was due to faster growth in imports at 23.9 percent compared with 22.2 percent increase in exports during the period under review. The widening trade deficit reflected global developments in 2008 which led to subdued external demand coupled with rising international oil prices.

**Figure 4.1: Kenya's Total Exports, Imports and Trade Balance, 2005-2008 (US\$ million)**

Source: KRA, CBK, and KNBS

Kenya's main trading partners in 2008 were EU, UAE, India and China accounting for 20.2 percent, 11 percent, 8.7 percent and 6 percent of total trade respectively. The share of Kenya's total trade with China increased from 5.4 percent in 2007 to 6.0 percent in 2008 while that of USA declined from 7.3 percent to 4.3 percent during the same period. The share of Kenya's trade with EAC Partner States was 7.6 percent in 2008 compared with 7.8

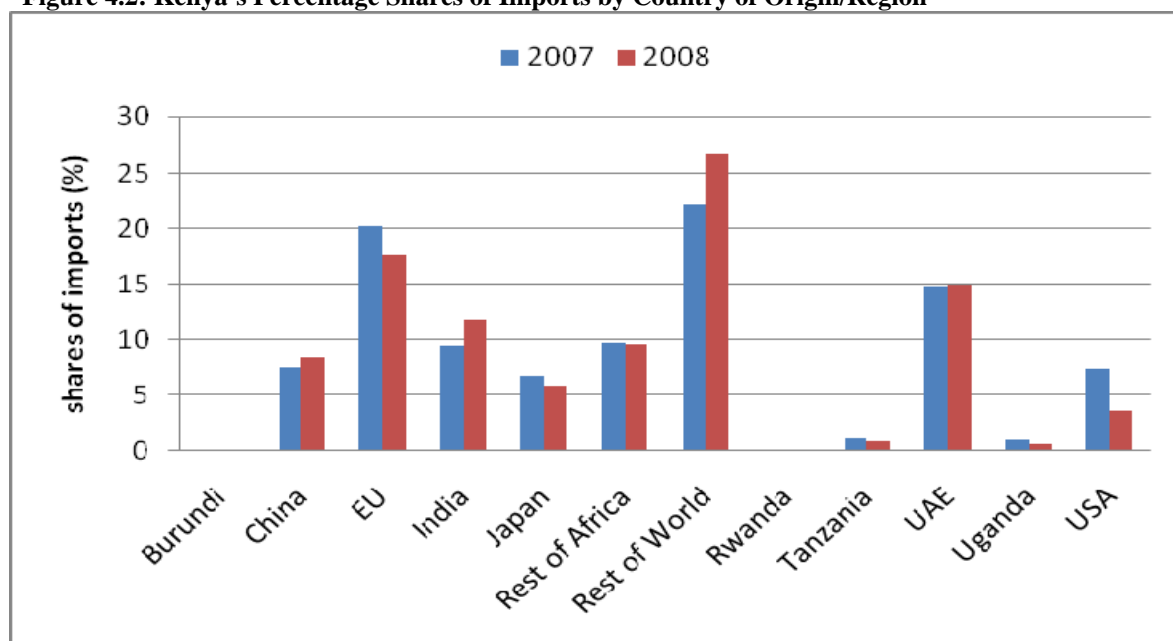

percent in 2007. The combined trade with Rwanda and Burundi increased to 1.1 percent in 2008 from 1.0 percent of total trade in 2007.

#### 4.1.1 Imports

Kenya's imports increased by 23.9 percent from US\$ 8,988.9 million in 2007 to US\$ 11,140.5 million in 2008 reflecting a relatively high import bill mainly on account of high international oil prices. Kenya's imports of mineral fuels and products increased by 58.5 percent in 2008 compared with 10.0 percent growth in 2007. Other imported goods included machinery and equipment, vehicles, iron and steel and animal or vegetables fats and oils (appendix Table 6b).

The combined imports from UAE, EU and India accounted for over 40 percent of Kenya's total imports. Total imports from EAC however declined by 4 percent from US\$ 188 million in 2007 to US\$ 181 million in 2008. Total imports from Rwanda and Burundi decreased from US\$ 3.6 million in 2007 to US\$ 1.5 million in 2008.

Figure 4.2: Kenya's Percentage Shares of Imports by Country of Origin/Region

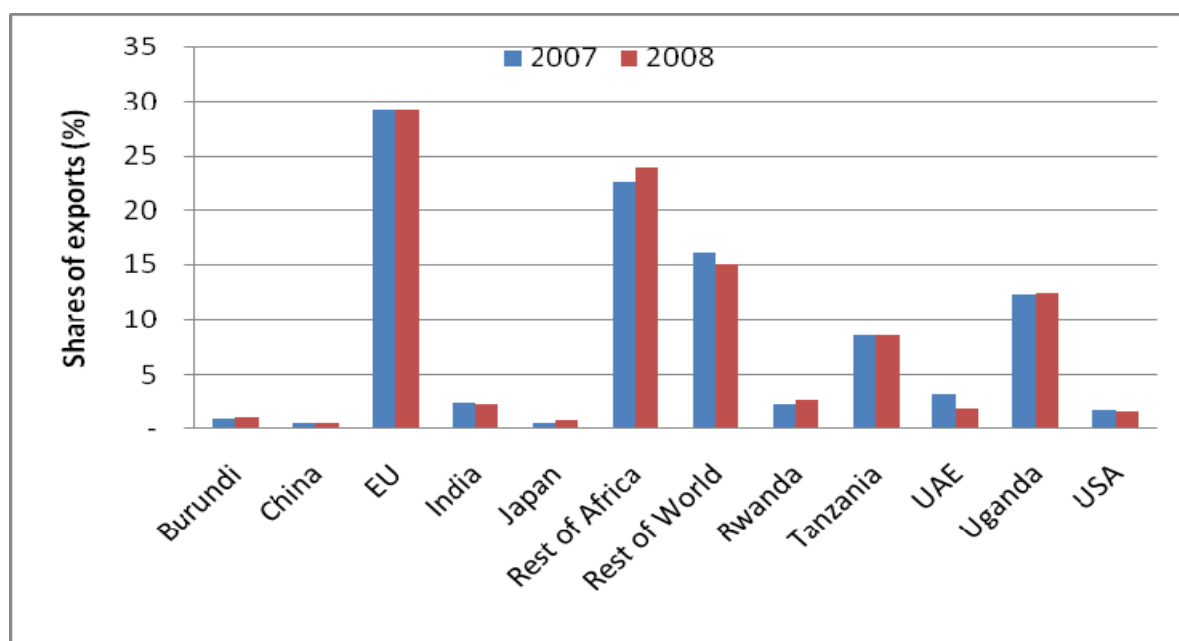

Source: KRA, CBK and KNBS

#### 4.1.2 Domestic Exports

Kenya's domestic exports increased from US\$ 3,584 million in 2007 to US\$ 4,328 million, an increase of 20.8 percent. However, the increase in exports in 2008 was mainly due to

increases in prices for most commodities in international markets. Otherwise, global demand was subdued in 2008 following the global economic crisis which intensified in the second quarter of the year. With the exception of UAE, exports to all destinations increased. The European Union continued to be the main export destination accounting for 29.3 percent of Kenya's domestic exports. Exports to EAC Partner States accounted for 21.1 percent of the total exports compared to 20.9 percent in 2007. In 2008, Kenya's domestic exports to Burundi and Rwanda increased by 46.2 percent and 38.6 percent and were US\$ 46.8 million and US\$ 109.6 million respectively. As a result, Rwanda and Burundi share of total Kenya's domestic exports increased by 1.1 percent and 2.5 percent respectively. The main domestic exports were coffee, tea, horticulture, tobacco, iron and steel, mineral fuels, salt and cement, inorganic and organic chemicals (appendix Table 7e).

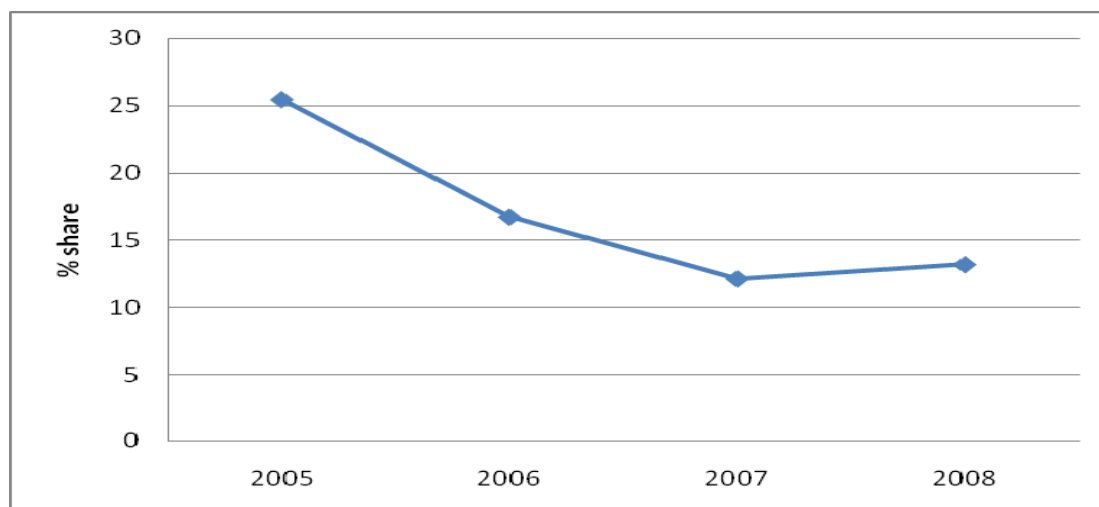

**Figure 4.3: Kenya's Percentage Shares of Domestic Exports by Destination**

Source: KRA, CBK, and KNBS

### 4.1.3 Re-Exports

Kenya's re-exports increased by 32.8 percent from US\$ 496.1 million in 2007 to US\$ 658.8 million in 2008. The increase could be attributed to re-exports of petroleum products to Swaziland and Singapore, and fertilizers to Rwanda. The downward trend in the share of re-exports to total exports reversed in 2008 (Figure 4.4).

**Figure 4.4: Kenya's Re-Exports as a Percentage of Total Exports, 2005 - 2008**

Source: KRA, CBK and KNBS

#### 4.1.4 Intra – EAC Trade

Kenya's total trade with EAC Partner States in 2008 increased by 19.6 percent from US\$ 718 million in 2007 to US\$ 1,018 million. This was however, lower than the 41.9 percent increase recorded in 2007. There was a slower growth in intra-EAC imports as indicated in Table 4.1 and Figure 4.5. Even then, Kenya's trade surplus with EAC Partner States increased by 33.2 percent in 2008 to US\$ 855.5 million from US\$ 642.4 million in 2007.

**Table 4.1: Kenya's Trade with EAC Partner States 2005-2008 (US\$ million)**

	US\$ Million				Percent Change		
	2005	2006	2007	2008	2006	2007	2008

Source: KRA, CBK and KNBS

**Figure 4.5: Kenya's Trade with EAC Partner States, 2005 – 2008 (US\$ million)**

Source: KRA, CBK and KNBS

#### 4.1.4.1 Imports

Kenya's imports from EAC Partner States declined from US\$ 188.0 million in 2007 to US\$ 181.0 million in 2008. The decline in intra-EAC imports was due to a 15 percent decrease in the value of imported goods from Uganda particularly those of oil seeds and cereals. Major imports from Uganda included tobacco, oil seeds, cereals, edible vegetables, animals and vegetable fats (appendix Table 5b).

Imports from Tanzania increased by 6.4 percent from US\$ 99.2 million in 2007 to US\$ 105.6 million in 2008. The major imports from Tanzania included paper and paperboard, textiles and worn clothing, cereals, wood and cotton (appendix Table 5b).

#### 4.1.4.2 Domestic Exports

Domestic exports to the EAC Partner States increased by 21.8 percent from US\$ 748.6 million in 2007 to US\$ 912.1 million in 2008 (Table 4.2). Domestic exports to Uganda grew by 21.9 percent in 2008 from US\$ 443.1 million in 2007 to US\$ 540.1 million in 2008. Uganda's share of Kenya's domestic exports rose slightly from 12.4 percent in 2007 to 12.5 percent in 2008. Major exports to Uganda included mineral fuels, salt, beverages, spirits and vinegar, paper and paperboard, iron and steel and pharmaceutical products (Table 7b in the appendix).

Kenya's domestic exports to Tanzania increased by 21.8 percent from US\$ 305.5 million in 2007 to US\$ 372.1 million but this was lower than the 40.3 percent growth registered in 2008. The Tanzania's share of Kenya's domestic exports rose slightly from 8.5 percent in 2007 to 8.6 percent in 2008. Major exports to Tanzania comprised of iron and steel, animal and vegetable fats, plastics, mineral fuels and aluminium (Table 7b in the appendix).

#### 4.1.4.3 Re-Exports

Kenya's intra-EAC re-exports rose notably by 52.1 percent to US\$ 124.4 million in 2008 from US\$ 81.8 million in 2007, partly reflecting substantial increases in the value of re-exports of petroleum products to Uganda, and pharmaceutical products to Tanzania. Hence the share of re-exports to total intra-EAC exports increased by 12 percent in 2008.

Due to the above mentioned developments, re-exports to Uganda increased by 31.1 percent from US\$ 55.6 million in 2007 to US\$ 72.9 million in 2008. Meanwhile re-exports to Tanzania almost doubled from US\$ 26.2 million in 2007 to US\$ 51.6 million in 2008. The Uganda's share of re-exports declined slightly by 0.1 percentage points from 11.2 percent in 2007 to 11.1 percent in 2008. On the other hand, the Tanzania's share of re-exports rose by 2.5 percentage points to 7.8 percent in 2008 from 5.3 percent in 2007.

**Table 4.2: Kenya's Intra-EAC Exports, 2005 – 2008 (US\$ million)**

Intra-EAC export flows	2005	2006	2007	2008
Intra-EAC Domestic Exports	500.7	536.4	748.7	912.1
Intra-EAC Re-exports	330.5	104.6	81.8	124.4
<b>Total Intra-EAC Exports</b>	<b>831.2</b>	<b>641.0</b>	<b>830.4</b>	<b>1,036.6</b>
Percent Share of Intra-Re-exports	39.8	16.3	9.9	12.0

Source: KRA

## 4.2 Tanzania's International Trade

Tanzania's total trade increased by 24.4 percent to US\$ 10,027 million in 2008 compared to the year 2007 and this was attributed to an increase in both imports and exports. During the period under review, exports increased by about 50 percent. However, imports increased much faster leading to the widening of the country's trade balance. Tanzania's trade deficit increased from US\$ 3,779.7 million in 2007 to US\$ 3,788.5 million in 2008 (Figure 4.6). The European Union and SADC were Tanzania's main trading partners with the respective share of 18.5 percent and 15.1 percent, of the total trade in 2008.

Trade between Tanzania and Burundi declined to US\$ 20.8 million in 2008 from US\$ 71.0 million in 2007 following a significant decline in exports of plastic items and salt to Burundi. On the other hand, Tanzania trade with Rwanda increased slightly from US\$ 17.6 million in 2007 to US\$ 22.2 million largely due to the relative increase in exports.

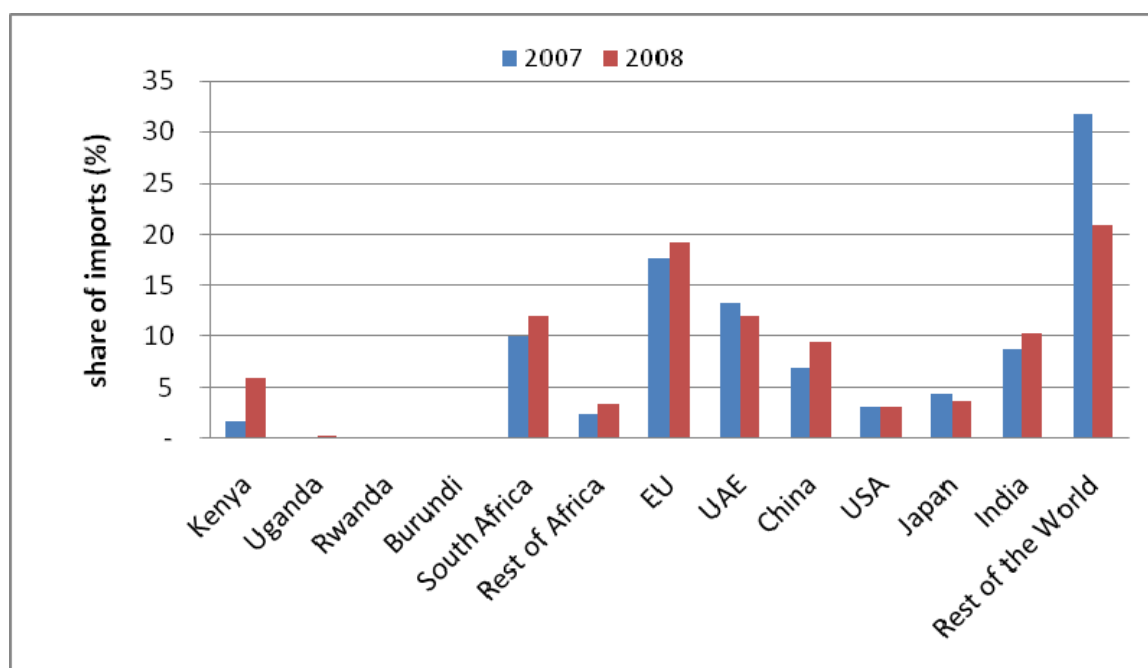

**Figure 4.6: Tanzania: Total Exports, Imports and Trade Balance, 2005 – 2008 (US\$ million)**

Source: TRA and NBS

#### 4.2.1 Imports

In 2008, Tanzania's imports increased by 16.7 percent to US\$ 6,907.8 million compared to US\$ 5,919.0 million recorded in 2007. The dominant imported items included petroleum products, machinery and equipments, motor vehicles and products of iron and steel. It is worth noting that the petroleum imports accounted for about 30 percent of total imports bill. During the period under review, the value of oil import bill remained almost unchanged at US\$ 1,771.6 million. The major sources of Tanzania's imports in 2008 were EU, United Arab Emirates, SADC (mainly South Africa), India, China and Japan, accounting for 66.0 percent of the country's import bill.

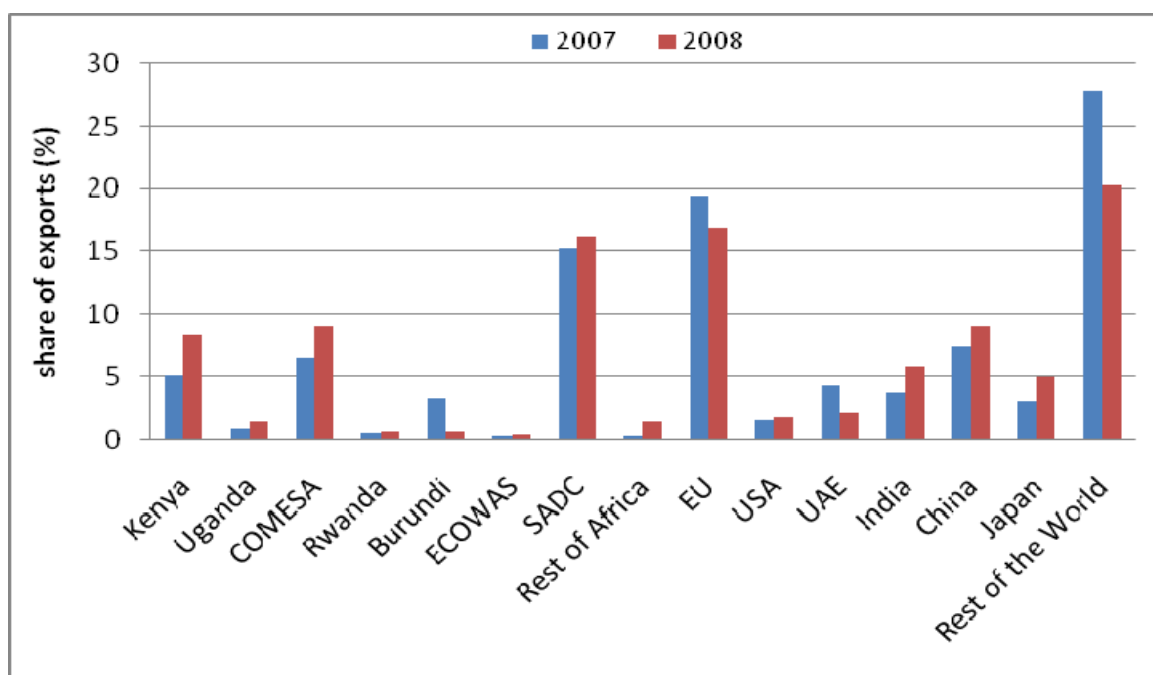

**Figure 4.7: Tanzania's Percentage Shares of Imports by Country of Origin/Region**

Source: TRA and NBS

#### 4.2.2 Domestic Exports

Tanzania's domestic exports rose by 50.0 percent to US\$ 2,947 million in 2008 following good performance in both traditional and non-traditional exports. Traditional exports which are mainly major agricultural cash crops increased following improved production and commodity prices in the world market. Some of the traditional exports that increased significantly include cotton and coffee. Gold, manufactured goods, fish and fish products were the dominant products in regard to non-traditional exports. Exports of gold and manufactured goods accounted for more than 60 percent of country's total domestic exports. The main destinations of Tanzania's exports during 2008 were European Union, SADC (mainly South Africa), COMESA<sup>2</sup>, China, Kenya and India.

<sup>2</sup> COMESA and SADC have overlapping membership

**Figure 4.8: Tanzania's Percentage Shares of Exports by Destination**

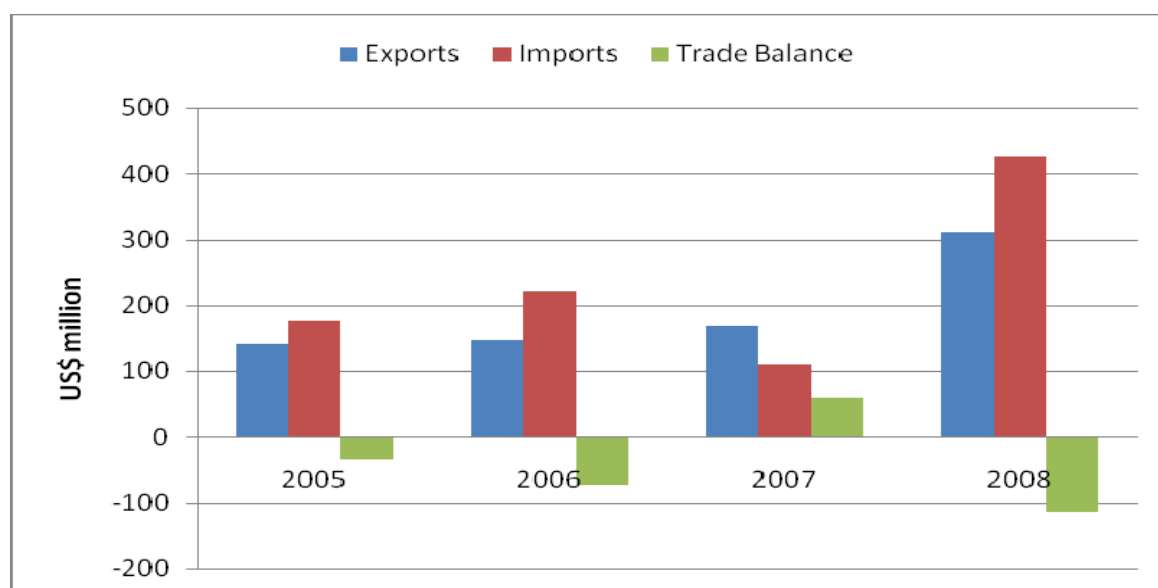

Source: TRA and NBS

#### 4.2.3 Re-exports

Tanzania's re-exports decreased slightly from US\$ 174.5 million in 2007 to US\$ 172.1 million in 2008. The re-exports were mainly wheat and petroleum. Likewise, the share of re-exports to total country's exports declined to the lowest level of 5.5 percent compared to an average of 8.0 percent registered in the past three years.

#### 4.2.4 Tanzania's Intra-EAC Trade

During 2008, Tanzania's total trade with other EAC Partner States increased significantly to US\$ 735.9 million from US\$ 279.5 million in the previous year. However, the increase is largely attributed to improvement in data collection following automation of major entry points bordering with other EAC Partner States. These include Namanga and Sirari entry points. Tanzania's trade balance declined from a surplus of US\$ 59.5 million in 2007 to a deficit of US\$ 114.8 million in 2008 due to increased imports from EAC Partner States.

**Figure 4.9: Tanzania's Trade with the EAC Partner States, 2005 – 2008 (US\$ million)**

Source: TRA and NBS

Tanzania's trade balance with Kenya registered a deficit of US\$ 156.5 million in 2008 compared to a surplus of US\$ 19.8 million in 2007. On the other hand, there was a small increase in trade surplus with Uganda from US\$ 39.6 million in 2007 to US\$ 41.6 million in 2008.

#### 4.2.4.1 Imports

In 2008, total imports from EAC Partner States increased to US\$ 425.3 million from US\$ 110.1 million in 2007. Imports from Kenya increased significantly to US\$ 408.2 million from US\$ 103.6 million in the previous year. The main imports were petroleum products, aluminium, motor vehicles, iron and steel. Imports from Uganda increased from US\$ 6.5 million in 2007 to US\$ 17.1 million in 2008. Cement continued to be the main imported product from Uganda.

#### 4.2.4.2 Domestic Exports

During 2008, Tanzania's domestic exports to EAC Partner States increased to US\$ 293.8 million compared with US\$ 127.2 million in 2007. Tanzania's exports to Kenya rose to US\$ 248.8 million in 2008 from US\$ 106.9 million in 2007. The exported items include electrical machinery equipment, sound recorders, textile articles, worn clothing, tea, coffee, mate and spice. Exports to Uganda increased significantly to US\$ 45.1 million in 2008 from

US\$ 20.3 million in 2007, with the major items being fishing hooks and nets, textiles and plastics (appendix Table 7b).

#### 4.2.4.3 Re-Exports

In 2008, Tanzania's re-exports to EAC Partner States decreased significantly by 60.5 percent to US\$ 16.7 million. The decline is largely explained by the falling in the re-exports of wheat, machinery and mechanical appliances. Re-exports to Uganda decreased to US\$ 13.7 million in 2008 from US\$ 25.7 million in 2007. The items re-exported to Uganda include wheat, petroleum products and palm oil. There was also a decline in re-exports to Kenya to US\$ 3.0 million in 2008 from US\$ 16.5 million in 2007 with the main products being motor vehicles, electrical machinery equipments and inorganic compound.

**Table 4.3: Tanzania's Intra-EAC Exports, 2005 – 2008 (US\$ million)**

Intra-export flows	2005	2006	2007	2008
Intra-EAC Domestic Exports	101.3	119.4	127.2	293.8
Intra-EAC Re-exports	40.7	28.0	42.3	16.7
Total Intra-EAC Exports	<b>142.0</b>	<b>147.4</b>	<b>169.5</b>	<b>310.5</b>
Percent Share of Intra-EAC Re-exports	28.7	19.0	25	5.4

Source: TRA and NBS

### 4.3 Uganda's International Trade

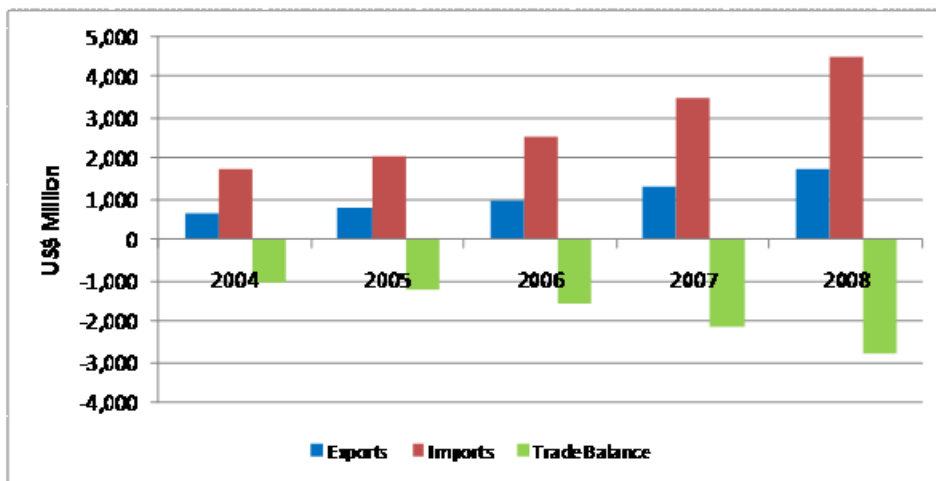

During 2008, Uganda's total trade<sup>3</sup> increased by 29.3 percent to US\$ 6,250.1 million. This was on account of increased exports and imports by 29.0 percent and 29.5 percent respectively. This was also in line with the general performance of the global economy that registered robust growth of 3.2 percent in 2008 (WEO April 2009) despite the onset of the global financial and economic crisis in the last quarter of the year. Exports increased from US\$ 1,336.7 million in 2007 to US\$ 1,724.3 million in 2008 on account of high international commodity prices that prevailed during most of the year and improved domestic production and productivity. Similarly, imports rose by 29.5 percent from US\$ 3,495.4 million in 2006 to US\$ 4,525.9 million in 2008.

<sup>3</sup> Uganda's trade figures in this report exclude Informal cross border trade figures for consistency purposes since the other Partner States haven't developed sufficient modalities for monitoring informal trade

At a regional level, Uganda more than doubled its total trade with the COMESA and registered a 28.6 percent increase in its trade with EU. Notably, imports increased at a higher rate than exports, widening the trade deficit by 29.8 percent to US\$ 2,801.6 million in 2008. Apart from COMESA and the Rest of Africa, the trade deficit with the other regional blocs continued to be observed. In 2008, Uganda's trade surplus with COMESA (excluding Rwanda, Burundi and Kenya) increased by 31.2 percent on account of several factors including: increased production and productivity in Uganda in response to the robust demand from the region, improved peace and security in the COMESA region especially in Sudan and DRC, the signing of favourable bilateral trade protocols and improved the trade environment in the region.

The other trading partners with which Uganda had remarkable trade deficits in 2008 were EU and UAE. These were estimated at US\$ 415.7 million and US\$ 387.4 million respectively. The resultant deteriorating trade balance was due to the continued export of raw materials, import of highly valued manufactured and consumer goods amid limited penetration and access to the new markets. Figure 4.10 below summarises the developments in Uganda's international trade.

**Figure 4.10: Uganda's Total Exports, Imports and Trade Balance, 2004-2008**

Source: UBOS, URA and BOU

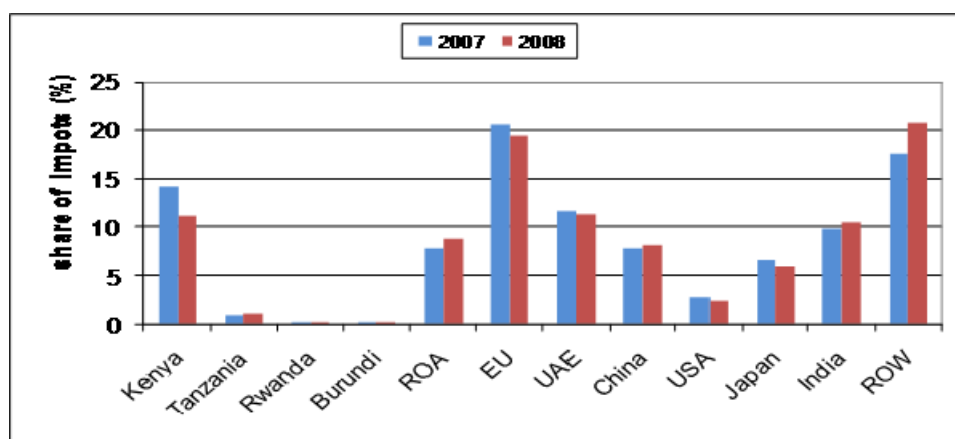

### 4.3.1 Imports

Uganda's imports rose by 29.5 percent to US\$ 4,525.9 million in 2008 on account of growth in private sector imports of capital and consumer goods. The high international oil and commodity prices that prevailed for most part of the year explain the rise in import values.

Focusing on regional trading blocs, the rise in total imports was attributed to increased imports from SADC and EU in 2008 by 43.2 percent and 22.3 percent to US\$ 343.6 million and US\$ 878.0 million respectively. The increase was on account of growth in private sector imports of capital and consumer goods such as petroleum products, iron and steel, mineral fuels, electrical machinery, pharmaceutical products and sugars. The import bill of petroleum products increased due to local demand for oil arising from shortage of hydro power and rising international oil prices. Most of the imports originated from EU, Kenya, China, India, Japan and UAE (Figure 4.11).

Uganda's imports from Rwanda decreased from US\$ 3.8 million in 2007 to US\$ 0.9 million in 2008 while those from Burundi increased from US\$ 0.8 million to US\$ 2.9 million. The reduction in imports from Uganda could also be attributed to improved classification of trade data.

Figure 4.11: Uganda's Percentage Shares of Imports by Origin, 2007-2008

Source: UBOS, BOU and URA

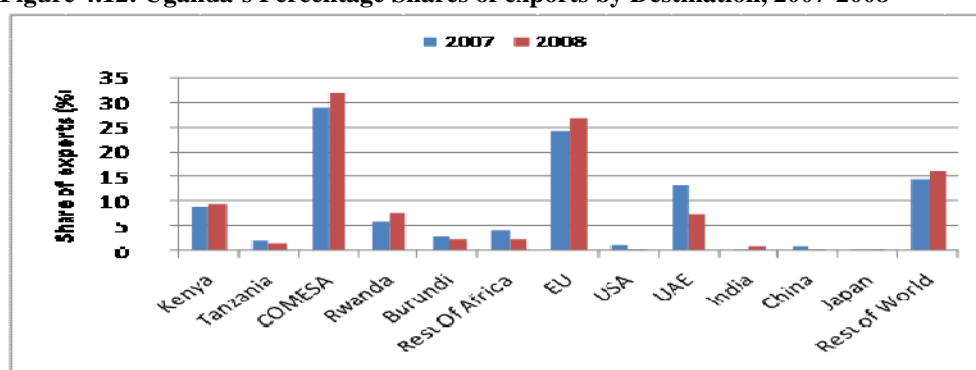

### 4.3.2 Exports

Uganda's total exports increased by 29.0 percent to US\$ 1,724.3 million in 2008, compared to an increase of 38.9 percent in 2007. This was as a result of increased exports to COMESA, EU and SADC of 43.7 percent, 42.5 percent and 57.4 percent, respectively.

The increase in exports to COMESA was attributed to robust demand for Ugandan produce particularly food and industrial products where exports to Sudan and DRC increased substantially from US\$ 157.1 million and US\$ 100.0 million in 2006 to US\$ 245.9 million and US\$ 125.0 million in 2008, respectively (Figure 4.12). The substantial increase in exports was driven by high international export prices and increased domestic production.

Exports to Rwanda and Burundi increased by 64.3 percent and 6.2 percent to US\$ 136.9 million and US\$ 45.4 million in 2008, accounting for 7.9 percent and 2.6 percent of Uganda's total exports respectively.

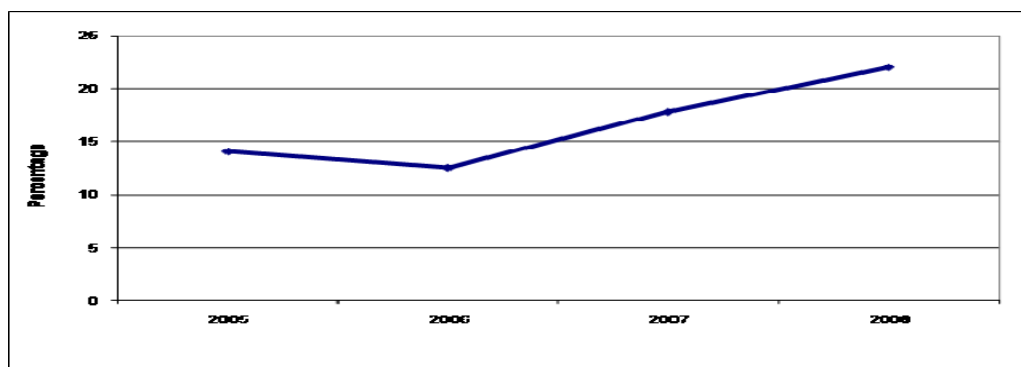

Figure 4.12: Uganda's Percentage Shares of exports by Destination, 2007-2008

Source: UBOS, BOU and URA

### 4.3.3 Re-Exports

Uganda's re-exports registered a substantial increase of 97.8 percent to US\$ 237.4 million in 2008 due to increased demand for goods in Sudan and DRC. The items re-exported were mainly foods and beverages, fertilizers, vehicles, chemicals and other pharmaceutical products. The re-exports accounted for 17.8 percent of Uganda's total exports while domestic exports amounted to US\$ 1,099.3 million in 2008. Figure 4.13 shows the proportion of re-exports to total exports.

**Figure 4.13: Uganda's Re-Exports as a Percent of Total Exports, 2005-2008**

Source: UBOS, BOU and URA

#### 4.3.4 Intra EAC Trade

Uganda's total trade with EAC Partner States increased by 12.8 percent to US\$ 762.0 million in 2008 compared to 2007. The increase in intra-EAC trade was on account of a combined increase in exports to Partner States of seven products from 31.2 percent in 2007 to 46.2 percent in 2008. Again imports from Partner States increased moderately by 7.7 percent due to substantial increase in imports from Tanzania.

The trade balance with EAC Partner States improved marginally from a deficit of US\$ 377.7 million in 2007 to a deficit of US\$ 371.7 million in 2008. This was on account of improved exports to Kenya during the year. However, the share of imports from EAC Partner States to Uganda's total imports continued to decline from 16.8 percent and 15.1 percent registered in 2006 and 2007 respectively to 12.5 percent in 2008. The development thus underpins the urgent need to increase production and productivity within the region to meet the ever increasing demand for both capital and consumer goods. Figure 4.14 summarises the trend of Uganda's intra EAC exports, imports and trade balance.

Figure 4.14: Uganda's Intra-EAC Trade, 2005-2008 (US\$ million)

Source: UBOS, BOU and URA

#### 4.3.4.1 Imports

Intra-EAC imports increased from US\$ 526.5 million in 2007 to US\$ 566.8 million in 2008. The increase in intra-EAC imports is attributed to a high demand for consumer and producer goods. However, the share of intra-EAC imports to total imports declined by 12.5 percent in 2008, 15.1 percent in 2007 and 16.8 percent in 2006. Of the intra-EAC imports in 2008, 90.2 percent were from Kenya compared to 94.1 percent from the same source in 2007. The main imports from Kenya included petroleum products, cement, cigarettes<sup>4</sup>, beer made from malt, salt, paper and its products, iron and steel, plastics and pharmaceutical products.

The top twenty major imports from Tanzania amounted to US\$ 52.1 million in 2008 compared to US\$ 29.2 million in 2007. These imports were comprised of iron & steel, animal fats & oils, sugars, electrical equipments and glass & glassware.

#### 4.3.4.2 Domestic Exports

Uganda's domestic exports to the EAC Partner States rose by 28.4 percent to US\$ 177.0 million in 2008, an increase of 42.8 percent in 2007. The rise in exports to Partner States was largely driven by a marked increase in exports to Kenya from US\$ 110.5 million in 2007 to US\$ 150.7 million in 2008. These included exports of cotton, soap, fruits, soya beans, unprocessed tobacco and animal fats & oils. Domestic exports to Tanzania, however, decreased from US\$ 27.3 million in 2007 to US\$ 26.3million in 2008. The main

<sup>4</sup> British American Tobacco relocated its manufacturing plant to Kenya from Jinja, Uganda in 2007.

commodities exported to Tanzania were mineral fuels, salt, cereals, iron & steels and animal fats & products.

#### 4.3.4.3 Re-Exports

Uganda's re-exports to EAC Partner States rose by about 65 percent to US\$ 18.2 million in 2008 compared to those of 2007. Re-exports to Kenya and Tanzania were valued at US\$ 13.9 million and US\$ 4.3 million in 2008 respectively. The major re-exports to Kenya were nuclear reactors & boilers, vehicles & accessories thereof, textile articles, electrical machinery & equipment and plastics & articles thereof while the main re-exports to Tanzania comprised of pharmaceutical products, nuclear reactors & boilers, vehicles & accessories and electrical machinery & equipment (Table 4.4).

**Table 4.4: Uganda's Intra-EAC Exports, 2005-2008 (US\$ million)**

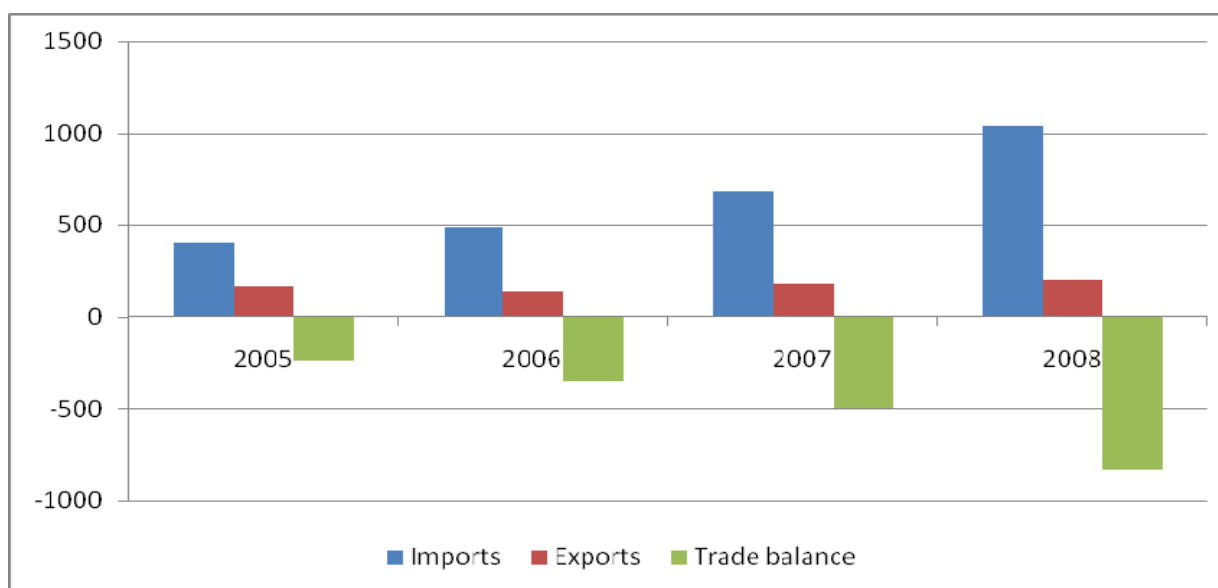

Trade flow	2005	2006	2007	2008
Domestic exports	77.77	96.48	137.81	176.99
Re-Exports	10.11	5.27	10.98	18.17
Total Exports	87.88	101.75	148.79	195.16
Share of Re-exports to Total Exports	11.51	5.18	7.38	9.31

Source: UBOS, BOU and URA

#### 4.4 Rwanda's International Trade

Rwanda's total trade increased substantially from US\$ 863.7 million in 2007 to US\$ 1238.48 million in 2008. Imports increased at a higher rate than exports thereby widening the trade deficit. The low performance in exports was largely explained by low export diversification coupled with price volatility in the international market. However, a lot of effort continues to be made to add value to exports through processing and quality improvements.

Import substitution measures were also being pursued to boost domestic production of such food items as rice and sugar. Figure 4.15 below summarizes trade developments in Rwanda over the 2004 - 2008 period.

**Figure 4.15: Rwanda's Total Exports, Imports and Trade Balance. 2005-2008 (US\$ million)**

Source: Rwanda Revenue Authority

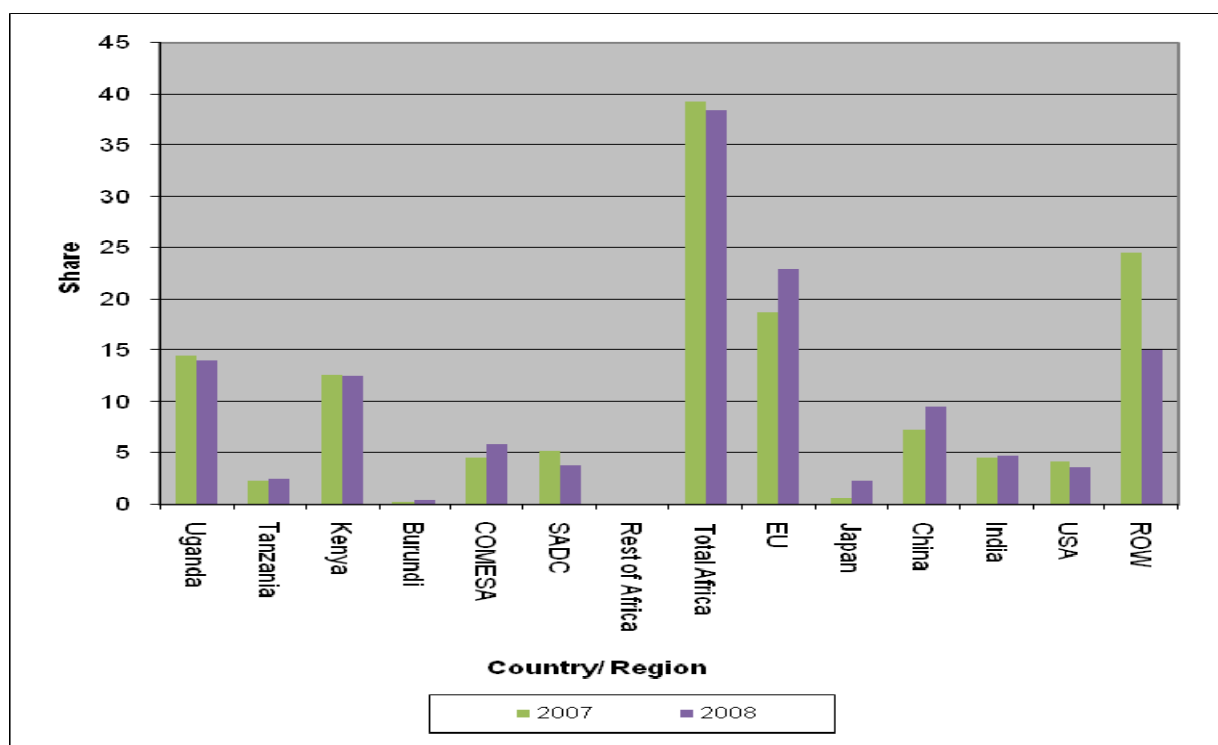

#### 4.4.1 Imports

Rwanda's imports increased from US\$ 680.5 million in 2007 to US\$ 1037.1 million in 2008 with vehicles, machine equipments, pharmaceutical products, electrical equipments, nuclear reactions, mineral fuel oil, iron sheets, salts, and products of milling industry and animal fats & oil products accounting for 39.0 percent of the total import bill.

The EAC and European Union blocs were the main source of Rwanda's imports accounting for 28.9 percent and 22.9 percent of total imports in 2007 and 2008 respectively.

Imports from African countries<sup>5</sup> increased from US\$ 258.5 million to US\$ 375.4 million and accounted for 38.0 percent and 36.2 percent of total imports in 2007 and 2008, respectively. Figure 4.16 below summarizes the trend of Rwanda's imports between 2007 and 2008.

<sup>5</sup> Includes imports from EAC Partner States

**Figure 4.16: Percentage Share of Rwanda's Imports by Origin, 2007-2008**

Source: Rwanda Revenue Authority

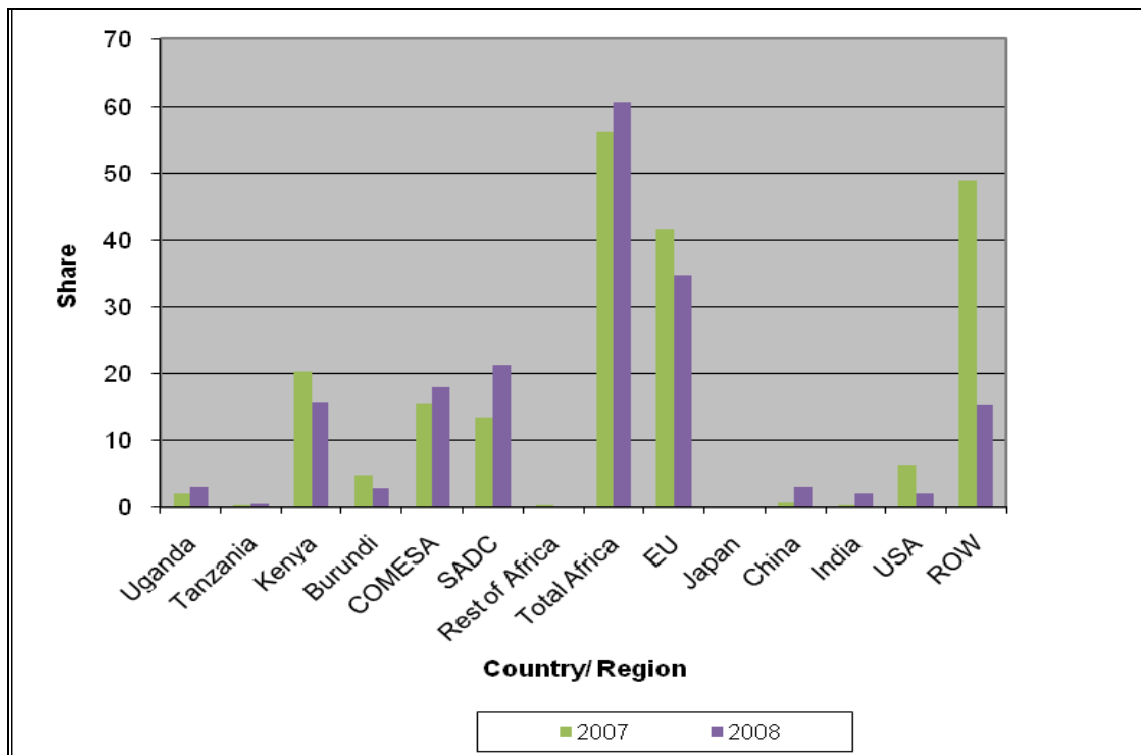

#### 4.4.2 Domestic Exports

Domestic exports amounted to US\$ 183.2 million in 2007 and US\$ 201.4 million in 2008, representing an increase of 9.9 percent. Exports were mainly ores, slag and ash, coffee, tea, mate and spices that accounted for nearly 70 percent of the total exports.

The coffee sector continued to benefit from reforms geared towards improving the quality of coffee to meet international standards.

Rwanda's exports were mainly destined to the European Union and COMESA regions. The sale of Rwanda's tea at the Mombasa Auction showed that Kenya was the main African destination of Rwanda exports, but eventually this may not have been the case. Figure 4.17 below summarizes Rwanda's exports by destination in 2007 and 2008.

**Figure 4.17: Percentage Share of Rwanda’s Exports by Destination, 2007-2008**

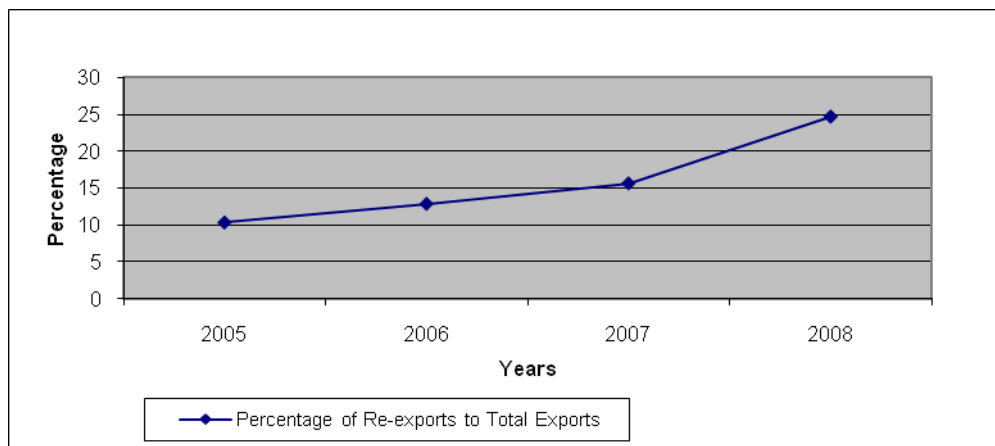

Source: Rwanda Revenue Authority

### 4.4.3 Re-Exports

Rwanda’s re-exports increased from US\$ 28.8 million in 2007 to US\$49.8 million in 2008 on account of re-exports of tin ores, vehicles, machinery ,optical, photo and cine equipments, electrical machinery and part of thereof. The share of re-exports to total exports increased from 15.7 percent in 2007 to 19.8 percent in 2008 (Figure 4.18).

**Figure 4.18: Rwanda’s Re-Exports as a Percent of to Total Exports, 2005 -2008**

Source: Rwanda Revenue Authority

#### 4.4.4 Rwanda's Trade with the EAC Partner States

Rwanda's total trade with EAC increased from US\$ 237.8 million in 2007 to US\$ 337.6 million in 2008. Kenya continued to be Rwanda's main trading partner within the EAC accounting for 50.5 percent and 47.5 percent of total EAC trade in 2007 and 2008 respectively. On the other hand, the trade deficit with the EAC Partner States continued to widen due to higher increase in imports compared to exports. Figure 4.19 summarizes Rwanda's trade with EAC over the 2005 - 2008 period.

**Figure 4.19: Rwanda's Trade with the EAC Partner States, 2005-2008**

##### 4.4.4.1 Imports

Rwanda's imports from EAC Partner States increased by 50 percent to US\$ 299.7 million in 2008. Imports from Kenya increased substantially from US\$ 50.5 million in 2007 to US\$ 129.0 million in 2008. The main products imported from Kenya included petroleum products, salts, plastic and articles thereof. Imports from Tanzania increased by 62.5 percent from US\$ 15.7 million in 2007 to US\$ 25.6 million in 2008 with products of milling industry, malt, starches, inulin, wheat Gluten and cereals accounting for 30 percent. Similarly, imports from Uganda rose by 47.4 percent to US\$ 145.3 million in 2008 partly due to increased imports of fertilizers, salt, iron sheet and plastics.

#### 4.4.4.2 Exports

Exports to EAC Partner States decreased by 0.2 percent from US\$ 37.9 million in 2007 to US\$ 37.9 million in 2008. These exports were mainly agricultural products such as coffee, tea and edible vegetables. Exports to Uganda and Tanzania increased from US\$ 3.2 million and US\$ 0.4 million in 2007 to US\$ 5.7 million and US\$ 0.8 million in 2008 respectively. However, exports to Kenya decreased from US\$ 34.4 million in 2007 to US\$ 31.3 million in 2008.

#### 4.4.4.3 Re-exports

Rwanda's re-exports to the Community amounted to US\$ 2.6 million in 2008 compared to US\$ 2.2 million in 2007. The main re-exports were vehicles & accessories; ores, nuclear reactors; and optical, photographic and, cinematographic materials.

### 4.5 Burundi's International Trade

Burundi's total trade<sup>6</sup> increased by 24.5 percent to US\$ 477.3 in 2008 million from US\$ 383.2 million in 2007. The increase is attributed to the increase in both exports and imports which grew by 17.3 percent and 26.0 percent, respectively. Burundi's trade deficit increased from US\$ 256.6 million in 2007 to US\$ 328.7 million in 2008. This was as a result of substantial growth in imports.

**Figure 4.20: Burundi's Total Exports, Imports, and Trade Balance, 2005-2008 (US\$ million)**

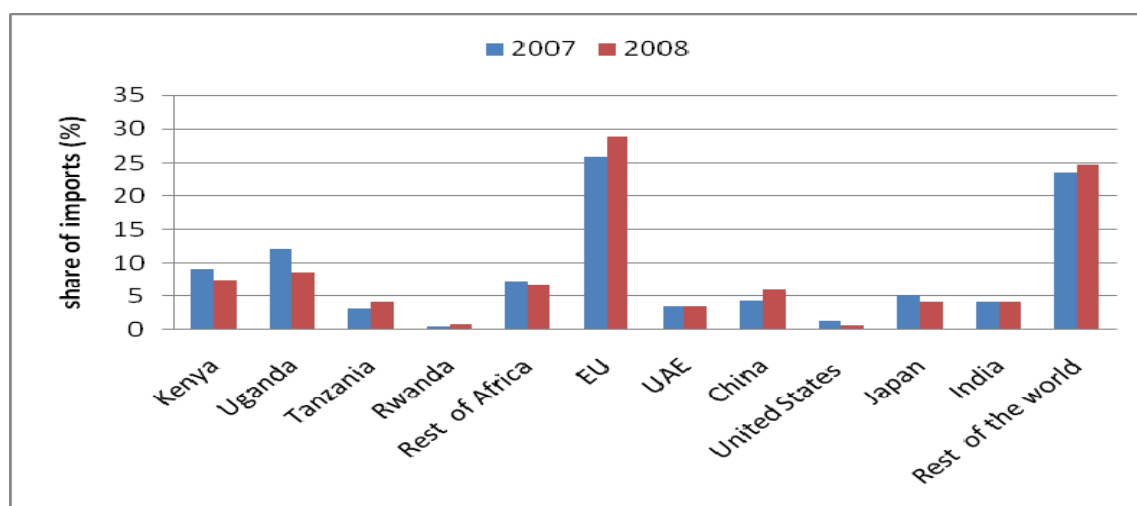

Source: Burundi Central Bank and Customs Department

<sup>6</sup> Excludes data from the Customs Border Bureau and Posts installed in the country side.

### 4.5.1 Imports

The value of total imports increased by 26.0 percent to US\$ 403.0 million in 2008 from US\$ 319.9 million in 2007, following the surge in importation of oil and capital goods. During the period under review, the value of imported oil and capital goods increased by 69.4 percent and 45.9 percent of total imports respectively. The major sources of imports were EU, Uganda and Kenya which accounted for 28.9 percent, 8.6 percent and 7.5 percent respectively. The main imports included petroleum products, motor vehicles, pharmaceutical products and wheat flour.

**Figure 4.21: Percentage Share of Burundi's Imports by Origin, 2007 and 2008**

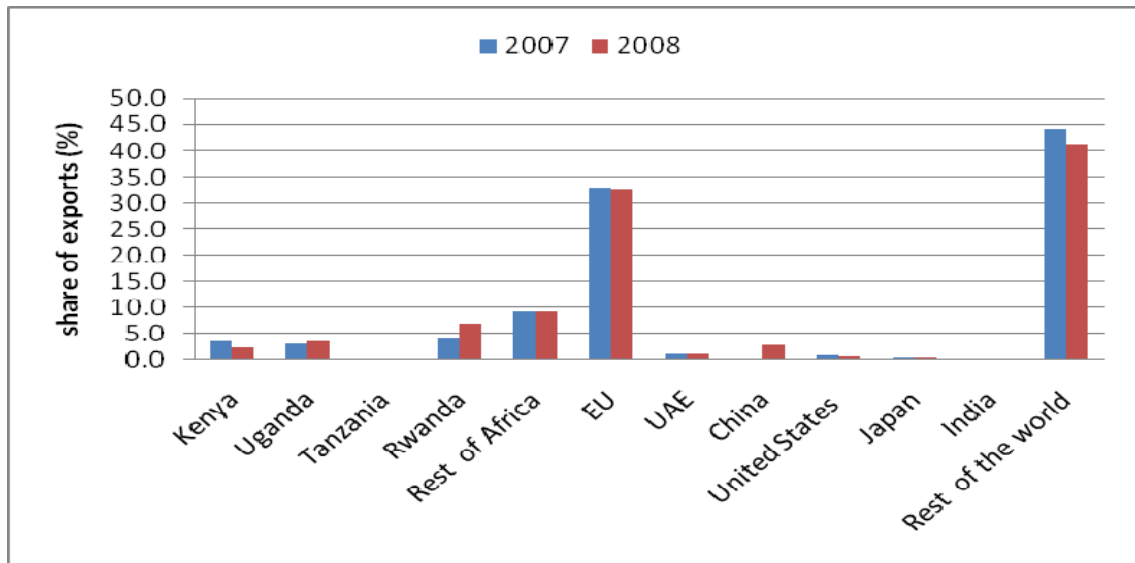

Source: Burundi Central Bank and Customs Department

### 4.5.2 Domestic Exports

Burundi's total domestic exports increased from US\$ 63.3 million in 2007 to US\$ 74.3 million in 2008, an increase of 17.3 percent. The increase reflects growth in value of raw agricultural products and manufactured goods particularly beer, cigarettes, sugar and soap. The main export markets were EU, Rwanda and Uganda which accounted for 32.5 percent, 6.7 percent and 3.5 percent of total exports respectively. The main export items included coffee, tea, raw hides and skins and cotton.

**Figure 4.22: Burundi's Percentage Share of Domestic Exports**

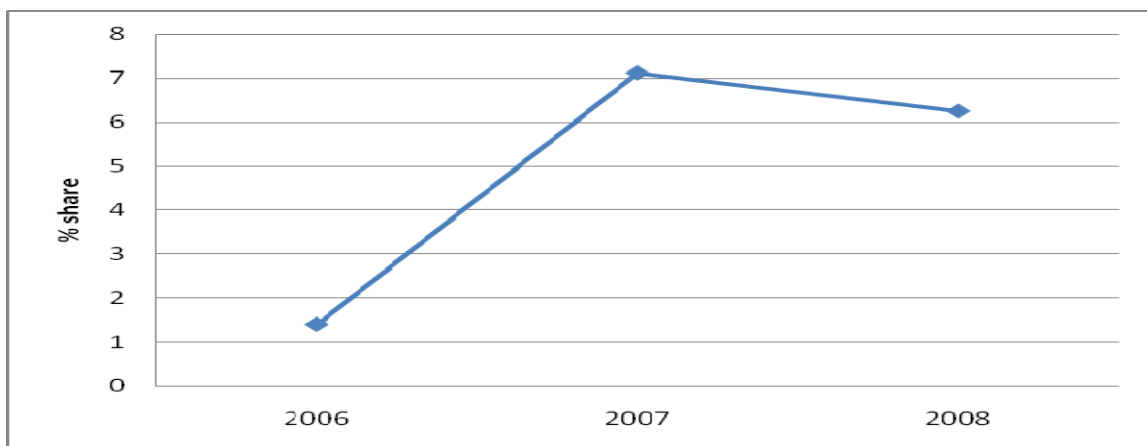

Source: Burundi Central Bank and Customs Department

### 4.5.3 Re-Exports

In 2008, the share of Burundi's re-exports to total exports declined to 6.3 percent from 7.1 percent recorded in 2007.

**Figure 4.23: Burundi's Re-exports as a Percent of Total Exports, 2006 - 2008**

## CHAPTER FIVE

### SPECIAL CATEGORY CONSIDERATIONS WITHIN EAC CUSTOMS UNION

#### 5.1 Exemptions and Remissions

The EAC Customs Management Act of 2004 provides guidance on the modalities of handling remission and exemption of import duty. It was generally agreed that in the long run, countries should work towards reduction of exemptions and remissions. However, the levels of exemptions and remissions varied in the Partner States with Uganda registering a decline while Kenya and Tanzania levels increased in 2008. This is partly explained by the nature of imported goods which are mainly capital and intermediate goods, considered necessary for investment and production.

The value of goods imported by Kenya that qualified for exemptions and remissions increased by 41.8 percent and stood at US\$ 2,306.2 million in 2008. This translated into an increase of 31.6 percent in foregone revenue in 2008 and was mainly on account of increased exemptions on agricultural products especially wheat, maize and sugar. Increased importation of cereals was as a result of reduced domestic production due to drought experienced in the review period (Table 5.1).

The value of , Tanzania's imports eligible for exemptions rose by 22.0 percent to US\$ 1,496.2 million and the foregone revenue increased by 62.5 percent to US\$ 435.9 million in 2008 compared with US\$ 268.3 million in the previous year. Most of the exempted goods were capital goods for investment projects approved by the Tanzania Investment Centre.

Uganda's imports subject to exemptions decreased by 2.8 percent to US\$ 211.4 million in 2008. Revenue foregone as a ratio of total trade tax collections thus, decreased further to 4.9 percent in 2008 compared to 5.1 percent, observed in 2006 and 2007 and 5.3 percent in 2005. Increased collections in domestic taxes arising from improved operational efficiency, effectiveness, tax education and awareness initiatives of the Uganda Revenue Authority explains the low percentage of foregone revenue of exemptions and remissions (Table 5.1). The revenue foregone, however, increased in nominal terms by 13.8 percent to US\$ 56.2 million in 2008 from US\$ 49.4 million in 2007.

**Table 5.1: Total Exemptions and Remissions Granted by EAC Partner States, 2005 - 2008 (US\$ millions)**

Partner States	Heading	2005	2006	2007	2008	Annual percentage change
<b>Uganda</b>						
	Value of Exemptions	178.8	174.0	217.5	211.4	-2.8
	Revenue Foregone	33.1	36.4	49.4	56.2	13.8
	Total Trade Taxes	586.0	682.1	919.1	1102.0	19.9
	<b>Percent Foregone</b>	5.3	5.1	5.1	4.9	
<b>Tanzania</b>						
	Value of Exemptions	901.6	1225.9	1496.2	1826.1	22.0
	Revenue Foregone	204.2	405.4	268.3	435.9	62.5
	Total Trade Taxes	730.5	822.1	1104.7	1440.9	30.4
	<b>Percent Foregone</b>	21.8	33.0	19.5	23.2	
<b>Kenya</b>						
	Value of Exemptions	800.9	1370.8	1626.7	2306.2	41.8
	Revenue Foregone	201.4	289.5	430.8	566.9	31.6
	Total Trade Taxes	1529.7	1749.0	2273.2	2451.6	7.9
	<b>Percent Foregone</b>	11.6	14.2	15.9	18.8	

Source: Partner States' Revenue Authorities

Note:

1. Percentage of Tax foregone is calculated from Tax exempted over Gross Tax collection.  $Gross\ Tax\ collection = actual\ collection + Tax\ exemptions$
2. Monthly revenue collections and tax exemptions are aggregated into calendar year
3. Annual average exchange rate have been applied to convert into US\$

## 5.2 Sensitive Goods

The EAC Partner States agreed on commodities that require extra protection over imports from outside the region. This measure aimed at protecting local production the assumption being that the region had adequate capacity to meet the demand for the commodities concerned. The protected products include among others sugar, milk, wheat flour, maize, rice, palm oil and textiles, among others. However in 2008, EAC Partner States recorded increases in the importation of the protected goods. The rise in imports of sensitive goods from outside EAC underpins the need for Partner States to address the impediments to domestic production.

Kenya's importations of sensitive goods from non-EAC countries increased by 77.1 percent from US\$ 413.4 million in 2007 to US\$ 732 million in 2008. The increase was mainly in regard to the importation of maize. During the review period, the country experienced drought

and was also affected by political events which together interrupted agricultural activities in the maize growing regions.

Tanzania's imports of sensitive goods from non EAC Partner States recorded a marginal decline of 3.8 percent to US\$ 273.0 million in 2008 from US\$ 283.7 million in 2007. The marginal decline is partly attributed to the fall of commodity prices due to Global Financial Crisis (GFC) that was more pronounced in the second half of 2008. The major imported items continued to be wheat, cement and sugar. The value of sensitive goods imported from EAC Partner States also declined by 4.2 percent to US\$ 13.4 million in 2008 compared with US\$ 14.0 million in previous year, with cement and milk being the major imports.

Uganda's imports of sensitive products from outside the EAC decreased by 7.8 percent to US\$ 321.9 million in 2008. During the period under review, wheat & meslin, portland cement, worn clothing and sugar continued to be the main sensitive imports by Uganda from non-EAC countries. The decline if sustained in subsequent years could reflect a milestone reached in increasing productivity and production of quality consumer and capital goods demanded within the Partner States.

### **5.3 Excisable Products**

Kenya's value of imported excisable products almost doubled, increasing from US\$ 1,430.7 million in 2007 to US\$ 2,093.1 million in 2008. This was mainly occasioned by increased importation of mineral fuels, mineral oils and products which increased by 59.7 percent.

The value of Tanzania's excisable goods increased from US\$ 1,926.5 million in 2007 to US\$ 2,468.9 million in 2008. Imports of petroleum products and vehicles continued to dominate. In 2008, petroleum products accounted for over 90 percent of all imported excisable goods. The increase in value of petroleum products is partly attributed to the surge in oil prices in the world market during the year under review.

Uganda's importation of excisable products increased by 29.3 percent to US\$ 1,160.3 million in 2008 compared to US\$ 897.4 million in 2007. The increased value was on account of 85.0 percent, 31.5 percent, and 23.0 percent rise in beverages, tobacco, and plastics related imports, respectively.

#### 5.4 Tariff Reduction Schedule

During the fourth year of implementation of EAC Customs Union Protocol, Tanzania and Uganda continued with gradual elimination of tariffs on goods falling within Category B<sup>7</sup>. Under the Customs Union agreement effective from 2005, Kenya was to immediately eliminate all tariffs on goods originating from Partner States while Uganda and Tanzania were to eliminate tariffs on goods falling under Category A<sup>8</sup> and gradually phase out tariffs on goods falling within Category B. The reduction in tariff is a prerequisite as the region heads towards a common market in 2010.

Implementation of the EAC Customs Union Protocol in Uganda indicated that the total value of imports subjected to a 4.0 percent tariff in 2008 were valued at US\$ 190.8 million compared to imports of US\$ 135.4 million that were subjected to a 6.0 percent tariff in 2007. The top imported items under the fourth year implementation schedule in 2008 were cement, tobacco and cigarettes, paper, rolled iron, and beer made from malt valued at US\$ 51.7 million, US\$ 10.4 million, US\$ 11.3 million, US\$ 22.1 million, and US\$ 22.9 million, respectively.

Tariff for category B goods imported by Tanzania from Kenya declined by 18.1 percent to US\$ 134.6 million in 2008. Some of the items that recorded significant declines include paints and varnishes, medicaments and paper and paper products.

#### 5.5 Tariff Bands

Under the Common External Tariff (CET), a three tariff band structure (0 percent, 10 percent and 25 percent) was adopted at the onset of the EAC Customs Union and all Partner States were to adhere to its implementation. Kenya fully implemented the agreed three tariff band structure in 2007 with the exception of sensitive products. Kenya imported goods under the zero tariff, were worth US\$ 7,478.9 million in 2008 an increase of 33.2 percent. This translated into 67.1 percentage share of the total imports in 2008. Imports under the 10 percent and 25 percent tariff accounted for 11.8 percent and 16.2 percent of total imports from the Partner States (Table 5.2).

---

<sup>7</sup> Category B includes few goods which are exported from Kenya to Uganda and Tanzania attracting tariffs between 2 percent and 10 percent respectively in 2006 and would be reduced to zero rate by January 2010 when customs union is fully operationalized.

<sup>8</sup> Category A includes goods which are zero rated

**Table 5.2: Kenya's Tariff Band Status, 2006 and 2007 (US\$ million)**

Tariff band status	2007	2008	% Change	% Share
<b>0</b>	5,616.15	7,478.90	33.17	67.13
<b>10</b>	1,277.89	1,317.74	3.12	11.83
<b>25</b>	1,672.94	1,803.21	7.79	16.19
<b>&gt;25</b>	421.93	540.67	28.14	4.85
<b>Total</b>	<b>8,988.91</b>	<b>11,140.52</b>	<b>23.94</b>	<b>100</b>

Source: KRA

During 2008, Tanzania's total imports under the CET increased by 16.7 percent to US\$ 6,907.8 million compared with US\$ 5,191.0 million registered in 2007. The zero tariff imports by Tanzania represented 61.1 percent of imports and were mainly industrial raw materials, capital goods and medicaments. The large share of zero tariff imports is partly in response to the on-going macroeconomic reforms geared towards attracting investments in manufacturing, mining, communication, tourism and transportation sectors. In addition, this is in conformity with one of the objectives of EAC of promoting investments and industrial activities in the community.

**Table 5.3: Tanzania's Tariff Band Status, 2007 and 2008 (US\$ million)**

Tariff Band	2007	2008	% Change	% Share
<b>0</b>	<b>3,324.95</b>	<b>4,219.21</b>	<b>26.90</b>	<b>61.08</b>
<b>10</b>	<b>1,272.08</b>	<b>1,248.59</b>	<b>-1.85</b>	<b>18.07</b>
<b>25</b>	<b>996.95</b>	<b>1,353.38</b>	<b>35.75</b>	<b>19.59</b>
<b>&gt; 25</b>	<b>110.79</b>	<b>86.66</b>	<b>-21.78</b>	<b>1.25</b>
<b>Total</b>	<b>5,919.00</b>	<b>6,907.84</b>	<b>16.71</b>	<b>100.00</b>

Source: TRA

In Uganda, the value of goods imported under the zero tariff band increased by 32.0 percent to US\$ 3,207.1 million in 2008 and accounted for 70.9 percent of total imports. medicaments, radio/TV transmission apparatus and palm oil continued to be the three most important imports in the zero percent tariff band. The value of goods imported under the 10 percent tariff band increased by 43.4 percent to US\$ 327.3 million in 2008. The dominant imports under this tariff band continued to be new pneumatic tyres for buses and lorries, vehicle parts and rolled iron & steel. Imports under the 25 percent tariff band accounted for 14.8 percent of the total imports, mainly composed of vehicles of cylinder capacity between 2250cc and 3000cc

## 5.6 Exemptions and Excisable Products in Rwanda and Burundi

Rwanda's imports subject to exemptions in the period under review increased by 48.2 percent from 339.3 million in 2007 to US\$ 502.9 million in 2008, resulting in increased revenue foregone from US\$ 114.8 million in 2007 to US\$ 166.8 million in 2008. Revenue foregone as a share of total revenue however decreased marginally from 72.2 percent in 2007 to 70.9 percent in 2008 (Table 5.3). Exemptions were mainly on imports related to registered investment projects, industrial inputs, imports from COMESA region and others products exempted by the Rwandan Customs Law and internationals conventions.

Exemptions on Burundi's imports increased by 25.0 percent to US\$ 403.0 million in 2008. The revenue foregone increased from US\$ 78.4 million in 2007 to US\$ 105.9 million in 2008. Exemptions were mainly on imports of agricultural commodities, medicines, truck vehicles, NGO related projects, computer and telecommunication materials (table 5.3).

**Table 5.3: Exemptions and Remissions for Rwanda and Burundi (US\$ Millions)**

Country	Heading	2005	2006	2007	2008	% Change
<b>Rwanda</b>						
	Value of Exemptions	197.4	255.3	339.3	502.9	<b>48.2</b>
	Revenue Foregone			114.8	166.8	<b>45.3</b>
	Total Customs Revenue	138.6	142.0	159.0	235.3	<b>48.0</b>
	%age Foregone			72.2	70.9	
<b>Burundi</b>						
	Value of Exemptions	321.1	429.4	322.3	403.0	<b>25.0</b>
	Revenue Foregone	72.9	87.9	78.4	105.9	<b>35.0</b>
	Total Customs Revenue	89.8	97.6	99.3	114.0	<b>14.7</b>
	%age Foregone	81.2	90.1	78.9	92.9	<b>17.7</b>

Source: RRA and Burundi Customs Department

Rwanda's value of imported excisable products increased significantly from US\$ 62.6 million in 2007 to US\$ 159.0 million in 2008, mainly due to increased importation in 2008.

The value of Burundi's imported excisable goods declined in 2008 mainly due to reduction of excise duty on sugar introduced in 2007. The main products attracting excise duty were mainly beer and lemonade, tobacco products and sugar.

## CHAPTER SIX

### CUSTOMS REVENUE PERFORMANCE IN EAC

#### 6.1 General Performance of Customs Revenue

Customs revenue continued to be a major source of revenue for EAC Partner States. In 2008, customs revenue was within target following measures to enhance efficiency of customs administration. These measures included computerisation of customs operations and enhanced enforcement measures. Table 6.1 summarises customs revenue collected by the EAC Partner States.

**Table 6.1: Customs Revenue Collected by EAC Partner States, 2007-2008 (US\$ million)**

Partner state	Tax head	2007		2008		2007	2008	2008
		Target	Actual	Target	Actual	Performance rate	%Change	
Uganda								
	Import	160.37	174.53	214.05	204.85	108.82	95.70	17.38
	Excise Duty	324.73	336.73	424.34	389.26	103.70	91.73	15.60
	VAT Imports	320.48	355.08	396.60	446.35	110.80	112.54	25.70

*Note:*

1. *Monthly revenue collections and tax exemptions are aggregated into calendar year*
2. *Annual average exchange rates have been applied to convert into US\$*

Kenya's total customs revenue collected on international trade increased from US\$ 2,273.2 million in 2007 to US\$ 2,435.7 million in 2008. However, this was below the set target of US\$ 2,451.6 million and reflected lower economic activity in 2008. Both the political developments in early 2008 and the global financial crisis in the third quarter of 2008 impacted negatively on tax collection performance. The proportion of international trade taxes to total revenue also declined marginally from 38.6 percent in 2007 to 37.8 percent in 2008.

The performance of total trade taxes relative to the targets improved marginally in 2008 compared with 2007. However, the improvement in trade taxes was entirely in Value Added Tax (VAT) on imports which exceeded the set target by 3.1 percent. Trade taxes comprise mainly of VAT on imports which accounted for about 33 percent in 2008. Import duty, excise duty and other taxes fell below target by 1.1 percent, 3.4 percent and 3.1 percent respectively in 2008. Additional measures were put in place by Kenya Government in 2008 to improve customs administration. These include additional marine motor boats, scanners and K9<sup>9</sup>'s all of which are expected to enhance surveillance and hence improve compliance.

Tanzania's customs revenue collection maintained its upward trend increasing by 30.4 percent to US\$1,440.9 million in 2008, surpassing the target by 3.0 percent. Improvement on tax collection was mainly due to enhanced tax administrative measures following the implementation of TRA's third corporate plan which involved the broadening of tax base. Conversely, the share of customs revenue to total revenue declined marginally from 44.2 percent in 2007 to 44.0 percent in 2008.

Uganda's total customs revenue increased by 17.8 percent to US\$ 1,102.0 million in 2008, exceeding the target by US\$ 3.4 million. Despite an increase in nominal terms between 2007 and 2008, all the customs tax heads, except VAT on imports were below targets in 2008. VAT on imports exceeded its target by US\$ 49.8 million in 2008. This was partly attributed to the high international oil and commodity prices prevailing during the larger part of the year. Import duty, excise duty and other customs related duties, increased in nominal terms by 17.4 percent, 15.6 percent and 16.5 percent to US\$ 204.9 million, US\$ 389.3 million and US\$ 61.5 million, respectively. The ratio of trade related taxes to total revenue increased from 50.8 percent in 2007 to 51.7 percent in 2008.

<sup>9</sup> Sniffer dogs

Rwanda's total customs revenue increased by 39.0 percent from US\$ 159.0 million in 2007 to US\$ 235.3 million in 2008, overshooting the target by 35.5 percent (Table 6.2). Sources of customs revenue included VAT, import duty, excise duty, and other taxes which respectively contributed 40.5 percent, 31.1 percent, 9.4 percent and 18.9 percent in 2008. Between 2007 and 2008, customs revenue collections on VAT and import duty which were the major sources of revenue increased substantially.

The proportion of customs revenue to total tax revenue increased from 35.2 percent in 2007 to 37.5 percent in 2008 due to general increase of imports in 2008

In 2008, Burundi's total customs revenue amounted to US\$ 114.0 million compared with US\$ 99.3 million in 2007. This was below the set target by US\$ 2.1 million. Nevertheless, measures were taken to improve customs administration which are expected to improve tax collection. These include the computerisation of two important customs bureau i.e. Gitega and Kayanza which has reduced fraud on internal transit. Kobero and Kanyaru- Haut on the frontier of Rwanda and Tanzania are undergoing computerisation and were expected to be completed by the end of the year. However, the proportion of customs revenue to total tax declined from 53.3 percent in 2007 to 52.0 percent in 2008.

## CHAPTER SEVEN

### INVESTMENT FLOWS IN THE COMMUNITY

#### 7.1 Policy Framework

The EAC Partner States have been working hard to overcome various challenges and improve business climate as well as the economic infrastructure and enable the region to emerge as a leading investment destination in the continent. The measure taken include the creation of stable and attractive macro and micro economic environment with reasonable level of inflation, fiscal and monetary policy reforms and legal and regulatory reforms to improve the business climate. It is hoped that these will put the region in a better position to compete globally.

All Partner States with the exception of Burundi have created Investment Promotion Authorities (IPAs) in an effort to facilitate and promote investment. The purpose of having an IPA is to have a one stop shop to serve investors. The one stop centre brings together various arms of government to ensure faster approvals and facilitation of investments.

#### 7.2 Investment Climate

The prevailing political, economic and social environment among the EAC Partner States is conducive for doing business. According to the 2010 World Bank Doing Business Indicators Survey, Kenya was ranked as one of the developing countries that have simplified procedures for starting businesses including property registration, business licensing, immigration permits, local authority licensing among other measures. Tanzania is emerging as a frontier for FDI attraction in the region, especially in mining while Rwanda is emerging as the ICT centre in the region. Burundi is in the process of establishing an Investment Promotion Agency.

The signing of the EAC Common Market Protocol in November 2009 will be a step forward in enhancing cross border business, trade and investment. The common market shall provide various rights and freedoms to EAC citizens. These rights include, the right to permanent residence; access to land; free movement of capital, goods and services, and labour.

An enabling investment climate in the EAC region eventually requires harmonisation of various laws and legislations affecting intra EAC business and investment flows. The elimination of Non-Tariff Barriers (NTB's) is also essential in creating an enabling business environment.

Partner States have consistently been improving their infrastructure including railways, road networks, air and marine transport facilities. These improvements coupled with other economic and financial reforms have attracted private investment and continue to offer opportunities for additional investment to foster robust economic growth in the region. Improvement in information dissemination systems is also vital in attracting investment.

Partner States have continued to invest in existing human resources in the region. In addition, the region outsources human resource in specialized areas such as telecommunications and energy sectors. This is done while taking into consideration the pool of experts within member states, complexity of technology employed and agreements reached with the investors. However, the ratification of the EAC Common Market Protocol which amongst other issues guarantees the free movement of labour will provide the region with a larger pool of talent. Furthermore, the EAC Common Market will enhance and harmonise labour related issues such as labour relations, social security, and workers compensation.

Partnerships with the private sector continue to be an important factor in improving the investment climate and promotion of investment in the region. In Kenya, the legal framework and guidelines for implementation (Legal Notice No. 10 of 2009) establishing PPPs was approved by Parliament in 2009. A strong affiliation between The Government of Tanzania and the private sector has been established through regular public private dialogue in different fora. Such platforms include the National Investment Steering Committee which is led by the Prime Minister. It is mandated to resolve investment issues that cut across different sectors and is comprised of cabinet ministers and other senior officials. The Tanzania National Business Council (TNBC) is another initiative established through a Presidential Circular to provide a forum for public/private sector dialogue with a view to reaching consensus and mutual understanding on strategic issues relating to efficient management of resources in the promotion of social economic development in Tanzania. Through TNBC, Local Investors Round Table (LIRT) and International Investors Round Table (IIRT) meetings chaired by the President are held and are attended by various international investors.

In June 2007, Uganda launched the second phase of Presidential Investors Roundtable (PIRT) as an advisory body consisting of 24 national and international corporate leaders to advise government on how to make Uganda a competitive investment destination and increase its share in the international, regional, and local markets. The PIRT has enhanced the implementation of the recommended reforms to yield desired results. PIRT meetings are held regularly every six months to take stock of the achievements and challenges identified. Under phase II, the priority sectors identified for investment promotion and development include; tourism, mining/petroleum, agribusiness (which includes sub-sectors like forestry, agro processing and biotechnology), Business Process Outsourcing (BPO) and business climate.

Rwanda's effort in promoting public private partnership is realized through the vibrant Private Sector Federation which also serves as the umbrella of the private sector. The federation in partnership with the Investment Board regularly organizes the Presidential Round Table meeting which also serves to enhance the same cause.

### **7.3 EAC Foreign Direct Investment Position**

Overall investment inflows to the EAC region increased by 8.5 percent from US\$ 8,333.4 million in 2007 to US\$ 9,040.5 million in 2008. However, there was a 33 percent decrease in the number of total approved projects from 992 in 2007 to 667 in 2008. In spite of the 2008 global financial meltdown and post election chaos Kenya had the highest share of investment inflows in the region. Total value of investment rose to US\$ 4,557.1 million from US\$ 2,057.1 million in 2007. Major source countries were from China, UK, Japan, India, Italy and USA.

During 2008, Tanzania Investment Centre (TIC) registered investment flows valued at US\$ 3,229.2 million, compared with US\$ 5,715.6 million in 2007. Investments coming from the rest of the world excluding EAC Partner States were valued at US\$ 2,859.0 million, representing a 49.5 percent drop in value of registered projects compared to projects valued at US\$ 5,664.7 million registered in 2007.

Uganda's investment portfolio more than doubled from US\$ 560.7 million in 2007 to US\$ 1,254.2 million in 2008. Uganda continued to attract investments from the rest of World which increased from US\$ 520.0 million in 2007 to US\$ 1,112.0 million in 2008. The major sources

of investment were Singapore, UK and India. Rwanda's total investment inflow increased approximately by 10 percent in Investment value, from US\$ 230.5 million in 2007 to US\$ 329.5 million in 2008 and decreased by 52.3 percent in number of projects registered in 2008. (Refer to table 7.1).

**Table 7.1: Foreign Direct Investment Flows in EAC region, 2006 - 2008 (US\$ Million)**

### 7.3.1 Intra-EAC Investment Flows

Uganda and Tanzania attracted most of the intra-EAC investment flows with Kenya being the dominant source. Total investment inflows from EAC Partner States to Tanzania increased from US\$ 48.6 million in 2007 to US\$ 368.6 million in 2008. Investment from Kenya rose from US\$ 45.8 million in 2007 to US\$ 366.3 million in 2008. This increase may be attributed to major investments by Kenya in steel manufacturing, poultry farming, construction of commercial buildings, manufacturing of farm implements and construction of tourist lodges.

The combined value of approved investments from both Kenya and Tanzania to Uganda more than tripled from US\$ 34.9 million in 2007 to US\$ 142.5 million in 2008. Investment inflows from Tanzania increased from US\$ 4.0 million in 2007 to US\$ 9.0 million in 2008. On the other hand, Kenya attracted minimal investment inflows from EAC Partner States in the period under review. Table 7.1 shows that intra-EAC investment flows to Kenya declined from US \$ 12.9 million recorded in 2007 to US\$ 2.0 million in 2008.

In 2008, the Rwanda Development Board (RDB) attracted investments worth US\$ 329.5 million from 21 projects registered, compared to 44 projects valued at US\$ 230.5 million in 2007. Rwanda's investment inflows from the EAC Partner States decreased from US\$ 35.2 million to US\$ 17.6 million in 2008, all of it originating from Kenya.

The investment inflows from the rest of the world to Rwanda increased by 60.0 percent from US\$ 195.3 million in 2007 to US\$ 312.0 million in 2008. In the EAC region, Kenya led in attracting investments. Kenya continued to attract increased investments from the rest of the world. Major sources of investments were China, UK, Japan, India, Italy and USA.

### 7.4 Number of Approved Projects

The investment within the EAC region is proxied by the number of projects approved by each Partner State. In Kenya, the number of projects from other EAC Partner States declined from 6 in 2007 to 5 in 2008 while projects from the rest of the world decreased from 62 in 2007 to 27 in 2008. Kenya recorded a substantial value in investment to the tune of US\$ 4,557.1 million in 2008, compared to US\$ 2,057.1 million in 2007.

Tanzania registered a total of 421 projects valued at US\$ 3,229.2 million in 2008, compared to 701 projects valued at US\$ 5,715.6 million in 2007. These were 39.9 percent and 43.5 percent decreases in the number and value of registered projects respectively. Uganda recorded a reduction in the number of approved projects from 223 in 2007 to 214 in 2008 although the average investment value per project rose significantly from US \$ 2.5 million in 2007 to US \$ 5.9 million in 2008. The number of investment projects in Rwanda decreased from 44 projects in 2007 to 21 projects in 2008.

## 7.5 Employment Creation

From the 667 projects licensed in 2008 in the EAC region, a total of 83,096 jobs were expected to be created compared to 134,477 jobs created in 2007 from 992 projects. All the EAC Partner States recorded decreases in job creation in 2007 and 2008 except for Uganda whose job creation increased by 40.0 percent. In 2008 jobs created in Tanzania decreased by 49.1 percent from 103,956 jobs created in 2007 to 52,942 jobs in 2008. The main activities of employment creation were manufacturing, economic infrastructure, tourism and commercial building sectors.

Uganda recorded an increase in job creation by 40.0 percent from 25,264 jobs in 2007 to 35,374 in 2008. The leading sectors in job creation were manufacturing; transport and communication; and, finance, insurance, real estate and business services whose combined share were 54.3 percent and 82.9 percent in 2007 and 2008 respectively. Rwanda registered a decrease in job creation from 4,144 in 2007 to 3,436 in 2008, representing a percentage decrease of 17 percent with the largest being in the telecommunications sector.

**Table 7.2: Number of Jobs Created through Foreign Investments, 2007-2008.**

Country	Year		% Change
	2007	2008	
Kenya	5,257	3,474	-33.9
Tanzania	103,956	52,942	-49.1
Uganda	25,264	35,374	40.0
Total EAC	134,477	83,096	-38.2
Rwanda	4,144	3,436	-17.1
Total	138,621	86,532	-37.6

Source: Partner States Investment Authorities

## **7.6 Sectoral Distribution of Foreign Direct Investment**

Assessment of sectoral distribution of foreign direct investment enables EAC states to properly focus the investment promotion efforts and prepare for the provision of facilitation and aftercare services. Targeted promotion effort is crucial as it allows for better utilization of scarce

resources and leads to better results. Establishment of investment projects is possible only where potential investors are appropriately facilitated to set up operations and provided with aftercare services to ensure that their investment targets are attained. While Kenya and Burundi are in the process of compiling data on sectoral distribution of foreign direct investment through planned surveys, Tanzania and Uganda compile this information on a regular basis.

### **7.6.1 Tanzania**

Manufacturing was the leading sector in terms of value of investments made in Tanzania during 2008. It accounted for 27.3 percent of the value of registered projects in the year. Investments in economic infrastructure contributed 23.4 percent of total investments and included new and expansion projects in construction of fuel storage facilities, ports and airports. Due to huge investments made in telecommunication industry particularly in mobile cellular networks, there was a 16.3 percent contribution by this sector in the value of registered projects. This involved expansion of existing projects and establishment of new ones. Commercial building and tourism sectors contributed 9.9 percent and 8.5 percent respectively in the value of investment made in 2008. Real estate projects particularly in Dar es Salaam boosted the value of investment in the commercial Building sector. It may be noted that most investment in the tourism sector involved construction of tourist hotels/lodges and investments in establishment of tour operations.

**Table 7.3 Tanzania's Sectoral Distribution of Foreign Investment 2007 – 2008**

Sector	2007				Sector	2008			
	No. of Projects	Employment	Investment (US\$ m)	% share		No. of Projects	Employment	Investment (US\$ m)	% share

### 7.6.2 Uganda

In Uganda, sectoral distribution of FDI shows that the manufacturing, transport, storage and communication sector led into the nominal value of planned investment in 2007 and 2008 accounting for 28.8 and 42.1 percent respectively. During the period under review, the manufacturing sector led in both job creation and number of projects recorded. For instance, in 2007 the employment created by 99 projects under the manufacturing sector stood at 8,757 jobs which increased to 13,268 jobs in 2008 from the 80 registered projects. Other sectors which recorded a substantial share in investment flows in 2008 were finance, insurance, real estate, and business services (20.4 percent) followed by manufacturing (20.4 percent) and whole sale and retail and accommodation services (7.4 percent). In 2008, the three sectors which attracted little foreign investment include the electricity, gas, water, community and social services, mining and quarrying sectors which require a large component of public sector participation.

### 7.6.3 Rwanda

Rwanda's sector distribution reveals that the sector of services and agriculture took the majority shares in both 2007 and 2008. However, there was an increase of approximately 7 percent in value in 2008 compared to 2007.

**Table 7.5 Rwanda's Sectoral Distribution of Foreign Investment 2007 and 2008**

## 7.7 Individual Countries' Sources of Investment

### 7.7.1 Tanzania

In 2007 the five major sources of investment inflows were USA, India, United Kingdom, Germany, and China. These countries accounted for 13.55 percent of total value of FDI

inflows into the country. In 2008, the top five sources of FDI inflows in terms of value of investment into the country were Netherlands, Kenya, United Kingdom, India, and USA. Their contribution to total value of FDI inflows was 36.44 percent.

**Table 7.6 Tanzania's Major Sources of Investment 2007 and 2008**

### 7.7.2 Uganda

Overall, the top ten countries accounted for over 80 percent of Uganda's investment portfolio. In 2007 and 2008 India and Singapore were the leading sources of Uganda's foreign investments which amounted to US\$ 169.6 million and US\$ 456.5 million, respectively. In both years, United Kingdom ranked second with a combined investment value estimated at US\$241.98 million and the jobs created totalling to 11,932. Among the leading investment sources, Kenya is the only country in EAC that featured in both years ranking fifth with US\$ 30.9 million and third with US\$ 133.5 million in 2007 and 2008 respectively. The other African countries that feature in both years as being the main sources of investment were Ethiopia, Nigeria, Libya, Mauritius and South Africa.

### 7.7.3 Rwanda

In 2008, Rwanda's five major foreign investments were Kenya, UAE, India, Japan and Belgium while in 2007, the leading sources of foreign investments were Libya, Canada, China, Togo and Kenya. In terms of employment, Indian projects provided most employment in 2008 while Spain projects generated more employment in 2007.

## 7.8 Challenges to Investment Promotion

Despite the improvements being made in regard to investments in the region, there are still challenges that faces the Partner States and this include; cumbersome administrative and regulatory requirements, the impact of global financial and economic crisis of 2008, high costs of doing business, inadequate and unreliable water and electricity supply.

Most IPA's receive inadequate funding which compromises investment promotion campaigns both locally and abroad. To effectively target investors, and attract substantial FDI, Partner States need to sufficiently fund their IPA's.

Bureaucracy as well as corruption in some government departments delay and compromise investment start up. There is need for Partner States to do more in eliminating bureaucracy and corruption and make the region more investor friendly.

The global economic crisis of 2008 underscored the need for partner states to increase domestic resource mobilization and savings. The cost of doing business in the region continues to be high due to poor infrastructure, high power tariffs, and high transport costs, among other factors. Deliberate efforts should be made by Partner States to sustain increased budget allocations to infrastructure development.
